# ACADEMIC GUIDANCE 2019 - 2020

FACULTY OF ECONOMICS AND BUSINESS  
INTERNATIONAL UNDERGRADUATE PROGRAM

[www.feb.ui.ac.id](http://www.feb.ui.ac.id)

# Welcome Note from Dean

*Assalamu'alaikum Wr. Wb.*

Dear International Undergraduate Program FEB UI Students,

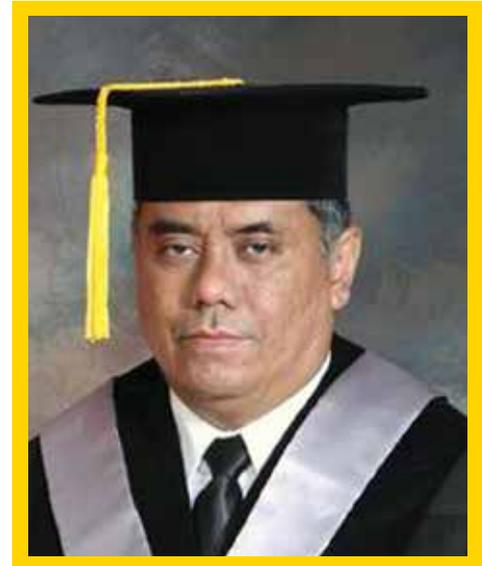

Faculty of Economics and Business Universitas Indonesia (FEB UI) has been recognized as leading center excellence by teaching and performing research in the field of economics and business. Inherited the name of country, FEB UI realizes that its mission is not only to promote higher education excellence but also to develop future leaders of our nation. Indeed, FEB UI has produced graduates who have significant contribution to our nation in economics and business area. Specifically, FEB UI's graduates have been entrusted with strategic position in government and private sectors (such as: Ministry, Entrepreneurs, CEOs, and Accounting Partners).

Not only we have transformed our teaching and research systems, but also improve our teaching quality by formulating international standardized curriculum. These mean that we are ready to go to international. Furthermore, we also keep update our curriculum with recent industry practice. This means our students will get recent and relevant knowledge that is very valuable to develop their skills both professionally and personally. We also improve our research by developing supportive research environment. We highly encourage our researcher to do high quality research and publish in reputable international journal. Therefore, we excel to develop high teaching and research performance at FEB UI.

We welcome you all and wish you wonderful learning experience during your study at FEB UI. We strongly believe that with strong collaboration between lecturers and students, you will able to develop your highest potentials and become the next generation of FEB UI that have excellent hard and soft skills.

Dean,

**Prof. Ari Kuncoro, Ph.D**

Not only we have transformed our teaching and research systems, but also improve our teaching quality by formulating international standardized curriculum. These mean that we are ready to go to international.

## I. BACKGROUND OF IUP-FEB UI

For more than 50 years since its establishment, the Faculty of Economics and Business at Universitas Indonesia (FEB-UI) has managed to uphold its reputation as a center of education excellence in Indonesia.

High performance achievement is reflected in the FEB UI's ability to obtain an A accreditation, the highest official education accreditation awarded by the government for all fields of major at the Strata One (S1) Program. Superior achievement standards in education set by the FEB UI has also equipped its graduates with a high level of competitiveness and prestige that, combined with self-discipline and motivation, enable many to earn key positions in the private and public sector.

FEB UI realizes that one of its biggest assets lies in its adaptive ability to cope with the ever changing environment. Particularly, due to increased globalization and internationalization, that narrow and diffuse borders among nations and make competition tougher and tighter, the FEB-UI feels the growing need to provide international exposure for its students.

Thus, the establishment of the International Undergraduate Program (The IUP-FEB UI) that aims to provide graduates with matching skills, knowledge, and qualification of high international standard is consistent with FEB UI's goal to answering such challenges. Hence, the International Undergraduate Program in Economics and Business is designed not only to produce graduates with strong competence in economics, accounting and management, but also to equip them with the capacity to communicate effectively in English. Additionally, this special class also aims to help students to develop their skill and experience within the perspective of the international business community. In this program, students will be introduced to the global business environment since the very beginning.

### I.1 HISTORY OF IUP-FEBUI

The IUP-FEBUI was officially established in 2004 under the deanship of Aditiawan Chandra, Ph.D (2001-2005) based on Rector Decree of Universitas Indonesia Number: 50/SK/R/UI/2004 on The Establishment of International Undergraduate Program at Faculty of Economics and Business.

The program was initiated by the Vice Dean Academic Affairs, Raksaka Mahi, Ph.D and, soon after, received full support from all three Department Heads: Bambang Brojonegoro, Ph.D (Head of Economics Department), Sidharta Utama, Ph.D (Head of Department Accounting), and Bambang Hermanto, Ph.D (Head of Management). The program started with the signing of dual bachelor degree collaboration agreement between the FEB-UI and the Faculty of Economics and Commerce at the University of Melbourne, Australia.

The establishment of this special program is an important milestone for FEB-UI. The program indicates FEB-UI's prompt anticipation toward ever changing landscape of higher education in Indonesia and the world. There has been a growing trend of internationalization in education, manifested in the establishment of international linked schools, national-plus schools, and international schools at the first and secondary education level. Naturally, the graduates of these schools have been showing strong intention to pursue higher education that offers international exposure. In addressing this demand, FEB UI established a number of partnerships with foreign-

affiliated universities. The partnerships aim to increase FEB UI's ability to adopt international curriculum and teaching methods. In addition, modern and state of the art teaching and learning facilities are provided, and managed under modern management that focus to offer better education services toward students and educators.

Undoubtedly, the decision to establish an international undergraduate class is strategic for FEB UI. It enriches FEBUI's portfolio, from a well-established regular program to a more diverse and highly segmented international program that requires innovative approach. Ultimately, the program provides a stone for FEB-UI to gain international recognition and global competitiveness.

In principle, the IUP-FEB UI adheres to the international class regulation that has been set forth by the university through the Rector Decree. Since the regulation only specifies general guidelines, such as the maximum period of study, the structure of the dual degree program, and the number of credits (SKS) that have to be taken and passed at UI, it applies to all faculties unanimously. Under the university regulation the international class is treated as a special class of the regular undergraduate program. As a result, the management of the international class may greatly vary among the faculties. In the case of the IUPFEB-UI, the FEB-UI treated the international class as a separate program with high academic integration to the existing regular program. Consequently, the IUPFEB UI is run and administered by a newly constructed task force, which quickly evolves into a formal strategic management unit that has its own staffing and office area. Thus, the establishment of this newly built management unit is to ensure that the program can be professionally managed and developed in such a way that it will become one of the flagship programs at the FEB-UI. Isfandiary Djafaar, M.Soc.,Sc and Evony Silvino Violita, M.Com, Ak were the first Director and Deputy Director of the Program.

Three years after its establishment, the IUPFEB-UI has managed to invite the Faculty of Business, Economics, and Law at the University of Queensland (Australia), the Faculty of Economics and Business at the University of Amsterdam (the Netherlands) and the

Faculty of Economics and Business Administration at the University of Tilburg (the Netherlands) into signing a dual bachelor degree collaboration agreement and, thus, adding to the already existing partnership with the Faculty of Economics and Business at the University of Melbourne (Australia). The IUP FEB-UI aims to add more partners to the list, providing students with more options to continue their study abroad while, strategically, also supporting the faculty's international network with world class universities. During the deanship of Prof. Bambang Brodjonegoro, Ph.D (2005-2009), the program continued to receive support and full attention from the FEB-UI, particularly as he and also the Vice Dean for Academic Affairs, Prof. Sidharta Utama, Ph.D, CFA were actively involved in delivering the program during its birth phase. Hence, it was the latter who established the dual bachelor degree program with the Faculty of Economics and Business at the University of Melbourne.

In 2009 the Program has produced the first batch of graduates from the dual degree track. Many of the graduates have been absorbed in the labor market soon after they get their degrees, while many others have continued their studies to the master level in various reputable universities, either at home or overseas. Some of them have even finished their master level and are now pursuing their doctorate degrees. Of those absorbed in the labor market, many have managed to get jobs in highly reputable Multinational Corporations and large national corporations.

The opening of the single degree track in 2010 gives the Program many opportunities for further developments. Firstly, it enables the program to develop full specializations at home, which are purposely designed to be different from those under the regular program. Secondly, it opens up possibilities for the program to create reversed dual bachelor degree (the first half of study is spent partner universities and the remaining half is spent at UI) and securing collaborations with reputable universities in wider regions, including ASEAN (under the ASEAN University Network), under various schemes, such as student exchange programs, fully paid credit transfer programs, and sandwich programs. Finally, it will also give students more study choices that can suit their financial plans and viability.

Entering 2018, as a follow-up of the full synchronization process of the curriculum that has begun in 2016 with those of the regular bachelor degree programs under the three departments, i.e. economics, management, and accounting, the curriculum of the Program has been fully aligned with those of the regular programs. The Program continues to attract the best students in the nation. Parallel to its increasing popularity and stronger image, the number of the dual degree partnership has also been steadily growing. The Program continues to widen country coverage to

give students more variety choices that would suit their needs. The Program currently has dual degree collaboration with nine universities in four countries. Australia remains the most sought-after destination place for transfer study, particularly for students taking the dual degree track in accounting. Hence, the Program has been collaborating with Melbourne University, Queensland University, Adelaide University, and the University of New South Wales, four members of the Group of Eight, the top most universities in Australia. The Program has already added New Zealand in the list of country coverage through its dual degree collaboration with the Victoria University of Wellington, one of the top universities in the country. The Netherlands is another country that also attract students to continue their half-part of their study completion. The Program has signed dual degree collaborations with several highly reputable universities in this country, i.e. Amsterdam University,

the University of Groningen, and Tilburg University. Britain is the latest addition to the list of the country coverage. The Program has already secured a dual degree collaboration agreement with the University of Birmingham and continues the agreement process with the University of Essex, the progress of which is expected to lead to the signing in 2019.

Despite remaining vigilant due to tight competition with the emergence of other similar programs of the other universities, this program has been reputedly known for following the same success path taken by the FEB UI, i.e. by always striving for pursuant of high standard of academic excellence. Thus, this program has been fast becoming the most sought after among similar programs in Indonesia.

---

### I.2. VISION AND MISSION OF FEB UI

---

#### **Vision:**

Establishing the FEB UI knowledge society of international perspective, who possess strong awareness of the nation's needs and promotes good governance principles.

#### **Mission:**

Organizing Higher Education in Economics, Management and Accounting with internationally insight and research-based to improve the quality and standards of life of Indonesian society by facilitating the development of all the competences of academic communities.

---

### I.3. VISION AND MISSION OF IUP-FEB UI

---

#### **Vision:**

To be one of the most reputable international undergraduate programs of economics and business in ASEAN

#### **Mission:**

1. To produce graduates who are not only professional and highly competitive in the labor market but also possessing strong moral integrity and receiving international recognition.
2. To provide effective support for the FEB UI in creating global network with world class universities.
3. To become an icon of excellent for international undergraduate programs in Indonesia with competitiveness at the ASEAN level.

## I.4. ORGANIZATION AND MANAGEMENT OF FEB UI

Based on the Decree of Board of Trustee No.01/SK/MWA-UI/2003 about UI's bylaws, the faculty organization consists of:

- (1) Faculty Executive Directors (Dean, Vice Dean and Faculty Secretary);
- (2) Faculty Academic Senate (SAF);
- (3) Board of Faculty Distinguished Professors(DGB-F);
- (4) Academic Organizing Units and Faculty Supporting Units.

Faculty Executive Directors are to deal with strategic academic and non-academic affairs, Faculty Academic Senate which consists of Faculty Executive Directors, Head of Departments, and representatives of academic affairs, are liable for determining general policy guidance for academic affairs, for giving approval or rejection on submitted academic development proposals, and for setting up academic standards. The main task of the Board of Faculty Distinguished Professors is to discuss and give suggestions to the Faculty Executive Directors on the strategic direction of the faculty.

Academic Organizing Units consist of Heads and Secretaries of Study Programs, including also the Director and Deputy Director of the IUPFEB-UI. Their main tasks are to formulate and implement policies for the Study Programs, to ensure that the direction of the Study Programs has followed the strategic policies set by the Faculty Executive Directors and to coordinate curriculum and teaching assignment under their corresponding line Departments. The Faculty Supporting Unit comprises managers and assistants to the Faculty Executive Directors. The main functions of this unit are to translate the Faculty Executive Directors' strategic policies at the implementation level, to ensure that the implementation of the strategic policies run effectively and to help facilitating the

entire organization units in both academic and non-academic matters.

In addition to the four elements mentioned above, FEB UI has a number of semi-autonomous institutes and centers that are treated as strategic business units or business ventures. These business ventures are given sufficient discretion to conduct their own activities, as long as they are still relevant with the pursuant of "Three Deeds of Universities (Tri Dharma Perguruan Tinggi)" and do not organize formal degree education activities. Thus, the main activities of these business ventures are research, consultation, non-degree training, seminar, workshops and publication. The list of institutes and centers under the FEB-UI is as follows:

- Demographics Institute (LD)
- Management Institute (LM)
- Institute for Economics and Social Research (LPEM)
- Accounting Development Center (PPA)
- SME Center (UKM Center)
- Islamic Economics and Business Center (PEBS)
- Economics and Business Data Center (PDEB)
- Publishing Institute (LP)
- Indonesia Center for Public Policy Studies

**Special Work Unit Coordinator** : Elok Tresnaningsih, M.S.Ak  
**Head of Planning and Development** : Narita Dini Anggraini, M.S.M

## II. STUDY PROGRAM COORDINATION

The FEB UI runs several study programs. In terms of academic affairs, all the study programs report to the Dean, the Vice Dean and to their corresponding line Head of the Department. In terms of non-academic affairs, all the study programs report to the Dean and are coordinated under the Faculty Secretary.

### II.1. STUDY PROGRAMS UNDER EACH DEPARTMENT

The FEB UI have 3 departments, i.e. the Department of Economics, the Department of Management, and the Department of Accounting. Each Department is led by a Head of the Department.

**The Department of Economics has 3 study programs running under its supervision as follows:**

1. Postgraduate Program in Economics
2. Master Program in Public Policy and Planning
3. Bachelor Program in Economics

**The Department of Management has 4 study programs running under its supervision as follows:**

1. Postgraduate Program in Management
2. Master Program in Applied Management
3. Bachelor Program in Management
4. Bachelor Program (evening class) in Management

**The Department of Accounting has 5 study programs running under its supervision as follows:**

1. Postgraduate Program in Accounting
2. Master Program in Applied Accounting
3. Education Program in Accounting Profession
4. Bachelor Program in Accounting
5. Bachelor Program (evening class) in Accounting

### II.2. CROSS-DEPARTMENT STUDY PROGRAM

Under the current university scheme, all bachelor degree programs should adhere to uniformed academic regulations. Thus, the IUP-FEBUI applies the same academic regulations and standard as the bachelor program, albeit there are distinct characteristics that differentiate the IUP-FEBUI from the bachelor program. The management of the IUP-FEBUI is, thus, separated from the organization of the bachelor program. Unlike other study programs, which are directly coordinated under each corresponding line departments, the IUP-FEBUI requires cross department coordination, as it covers specializations under the three Departments. This makes the position of the IUP-FEBUI unique. Below is a partial organization chart of the FEBUI that shows the position of the IUP-FEBUI..

CHART 2.1. Position of IUP-FEB UI

## III. ACADEMIC REGULATION

### III.1. STUDENT REGULATION

**Referring to the Rector Decree No. 450A/SK/R/UI/2006, student registration at Universitas Indonesia (UI) involves both administrative and academic process.**

Students should conduct administrative registration to earn active status in the chosen study program(s) for the incoming semester, while they should also conduct academic registration to earn the right to participate in any form of academic activities at the chosen faculty / department / study program for the incoming semester. It should be noted that students are

automatically regarded as resigning from UI if they do not conduct student registration for two consecutive semesters.

The administrative registration should be done at the beginning of each academic semester through the payment of tuition fees (applicable for all students) and / or admission fees (applicable for new students only) to the UI account through BNI, Permata, Bukopin, Mandiri, BRI and CIMB Niaga, while the academic registration is the registration, through SIAK NG, for subjects to be taken in the incoming semester.

#### III.1.1. REGISTRATION FOR NEW STUDENTS

Registration for new students is conducted at the University Administration Center or Pusat Administrasi Universitas according to the preset registration schedule for each study level and study programs. Students completing the registration process

will be marked as registered students. Students should then acquire an active academic status before they are allowed to join any academic activity. Students will obtain active academic status once they have fully paid tuition fees and other administrative charges (if any) for the incoming semester; or once students have paid by installment, by postponement, sponsorship, or any other mechanisms, tuition fees and other administrative charges (if any) as have already been agreed upon by the university. Students who fail to pay will have their academic status recorded as inactive and, therefore, are not eligible to join any academic activity in the incoming semester.

#### III.1.2. REGISTRATION FOR CONTINUING STUDENTS

Every semester students are obliged to complete both academic and administrative registration process. To pay for the tuition fee, students should pay through host-to-host on-line payment system. Any late payment will be charged with administrative fine which amount will vary according to the latest Rector Decree for this matter. If students fail to conduct administrative registration for a particular academic semester, their status will be automatically marked as inactive for the corresponding semester, implying that the respective students will be unable to join any academic activities (not allowed to take any subject) for that particular semester, while it will still be regarded as study period. To change their status back to active for the corresponding semester, inactive students must fulfill the following procedures:

- The respective students request a formal statement letter from the Division of Student Affairs at the FEBUI.
- With that letter, the respective students come to the Directorate of Finance at the university to ask

for a permission statement to pay tuition fee plus administrative fine for that semester.

- The permission statement from the Directorate of Finance is required when students choose to pay tuition fee through BNI.
- The copy of proof of payment is delivered back to the Directorate of Finance to be verified. In addition, students are also required to provide the copy of proof of payment to the IUP-Secretariat. Any ignition for academic leave, installment payment or payment postponement must be submitted no more than 30 days before the payment period starts (students should refer to the academic calendar). After finishing the administrative registration, students must complete on line academic registration through SIAK-NG (the next generation of academic information system).

### III.1.3. ON-LINE ACADEMIC REGISTRATION THROUGH SIAK-NG

Starting from 2007, the academic registration of the IUP-FEBUI has been fully integrated to the university level through SIAK-NG (next generation of academic information system). SIAK-NG is a web application that supports academic activities at Universitas Indonesia. The system requires students to do an on-line academic registration by themselves from anywhere at any time as long as students have internet connection. It is imperative for students to maintain their SIAK NG throughout their studies both in IUP-FEBUI and in the partner university. Password to SIAK NG must be changed every five (5) months. It is the students' responsibility to change the password including when they are studying at the partner university overseas. The functions of SIAK-NG to students are as follows:

- Students can systematically arrange their academic activities at anytime.
- Students can monitor their grades online through the internet.
- Integrated and accurate monitoring about academic activities at Universitas Indonesia through academic calendar.

Students can access academic announcements relevant to their studies. In addition, SIAK-NG also provides some benefits for students:

- The convenience of monitoring grades and academic activities on line.
- The convenience of conducting academic registration.
- The convenience of monitoring lecturing and exam schedule.
- The convenience of completing student academic plan (Isian Rencana Studi or IRS) on line.

### Procedures to Fill in Student Academic Plan at SIAK-NG

1. Type in <https://academic.ui.ac.id>
  2. Log in by inserting your user name and password.
- Below is the display when you log in:

Put in your username and password

### Academic Regulation

For first time log in, students must update his/her personal information. Form B and C are forms which are mandatory to fill out. You must fill in the box with star sign. You can see the display below:

- After fill in your personal information, the display will be as follow: the following is the display that will appear.

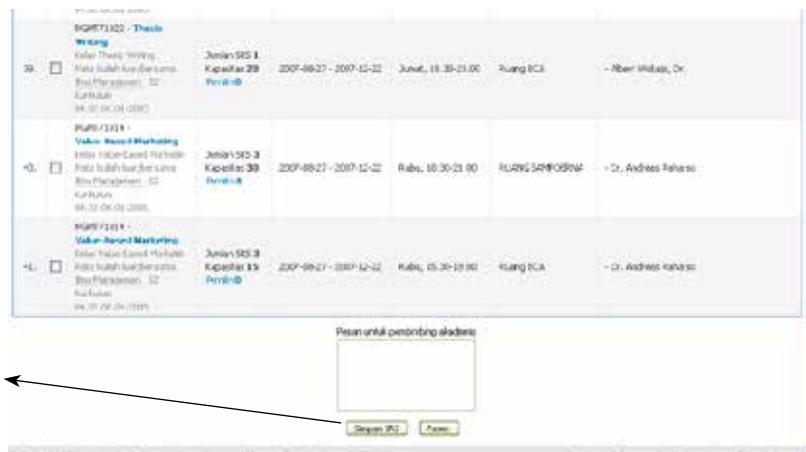

- Choose IRS (Student Academic Plan), and then click “Isi/Ubah IRS” (fill up/change IRS).

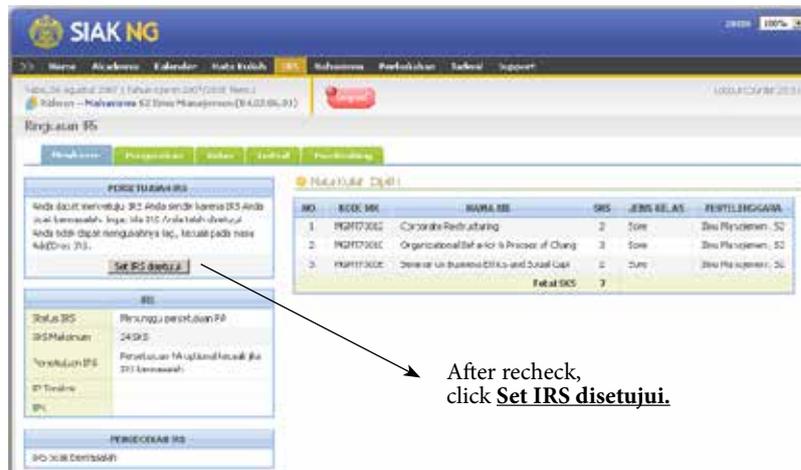

- Pick subjects depend on specialization chosen.

- Then click “save IRS”

- The next, you click “Set IRS disetujui”.

*Note that since the IUP-FEB UI chooses a full academic counseling option that gives the program full authority to approve student academic plan, on-line academic registration will be limited to the submission of both the list of subjects and the amount of credits that students intend to take into the system. Since all first year subjects should be taken, students are not required to ask for any academic counseling. However, it is advisable for students registering for the second year onward to discuss the list of subjects taken with the program, as the maximum number of credits allowed to be taken will be determined by their GPA of the previous semester.*

*The following is the procedure of course approval students should complete in planning their study:*

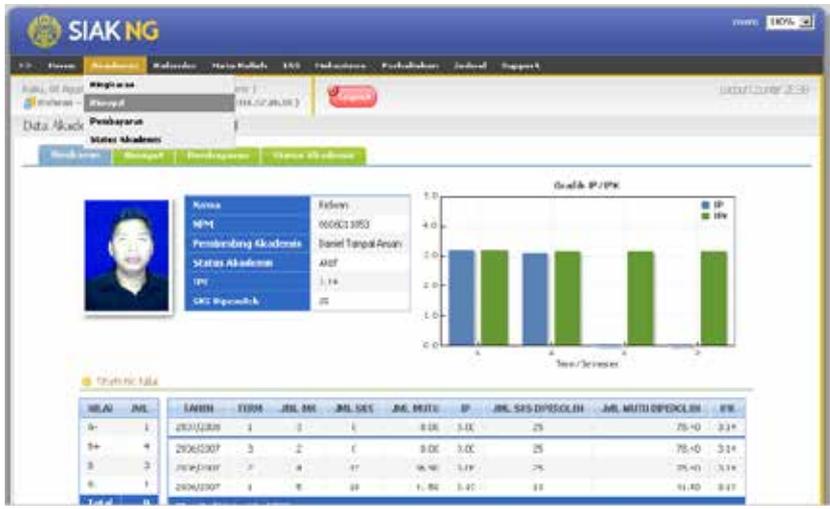

- Students must make sure the courses taken do not have overlapping time schedule nor have the classroom quota been exceeded
- Students must get approval from the academic advisor
- Students must get a final approval by the Vice Dean of Faculty of Economics and Business at Universitas Indonesia

- Having successfully filled in the IRS, the display will be as follow. You have finished the process.

**Steps to Know Your Grade**

- Click “Akademik” (academic) then click “Riwayat” (academic record).

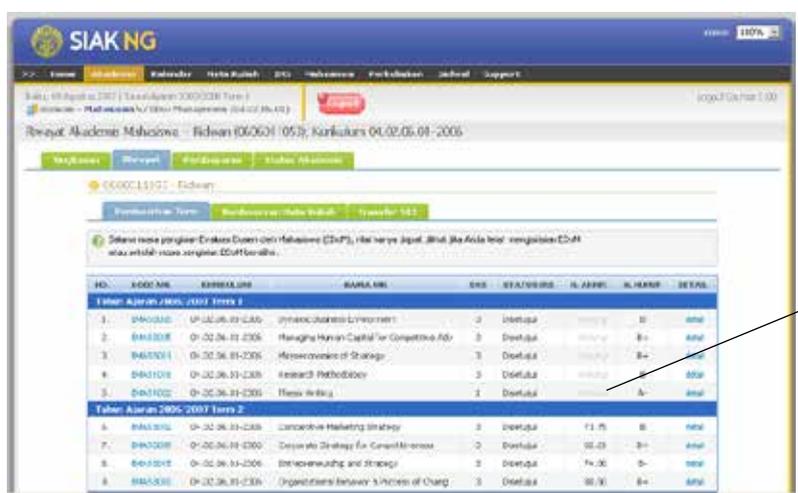

- When your grades are not yet appear, you must fill in EDOM (Evaluation for Lecturer by Students)

Grade will automatically out after concluding EDOM.

- The content appearance of EDOM,

You must fill in EDOM, so that you can retrieve your grade

- Choose IRS (Student Academic Plan), and then click “Isi/Ubah IRS” (fill up/change IRS).

#### III.1.4 REGISTRATION FOR STUDENTS AT PARTNER UNIVERSITIES

Once students have been transferred to the partner universities, students need to conduct administrative registration every semester at the IUP-FEBUI to keep status active. Moreover, there are also some academic responsibilities for students at partner universities, as follow:

- Maintain SIAK NG to view academic announcements, academic and payment status, among other matters
- Students are obligated to report their academic results to IUP-FEBUI. A failure to do so for two semesters will affect the validity of the students’ status at IUP-FEBUI
- Keep the tuition fee receipt until graduated from IUP-FEBUI in order to avoid any disputes in payment records
- Inform and conduct administration to IUP-FEBUI to process graduation in UI once the student graduates from partner universities.

#### III.1.5. ACADEMIC LEAVE

Students can opt for academic leave in which they will be regarded as academically inactive. According to the Rector Decree Number 472/SK/UI/2006 on Academic Leave for Universitas Indonesia’s Students, students will be granted academic leave, providing that the respective students have fully registered for 2 (two) consecutive semesters since the first time they registered as students. In other words, only students are at least in semester 3 who are eligible to request academic leave.

Maximum period of academic leave is two (2) semesters. Two semesters academic leave can be taken consecutively or separately. The maximum study period and evaluation will be adjusted to the academic leave given (see section 4). Students that have already taken 2 (two) semesters for academic leave are not permitted to take another academic leave for the remaining period of study.

In the event that students take academic leave, they have to submit a prior written request or notification to the Director of the Program before period of administrative registration. The Program will proceed to the faculty level to get faculty approval. The faculty will then proceed by submitting a written request to the university level. Final approval from the university is given with the issuance of the Rector Decree on the said academic leave. Student who obtains permits leave is not allowed to joint any academic activities.

Tuition fee for academic leave can be seen on section 5. Any request for academic leave that are submitted after the period of administrative

registration will result in full payment (100%) of tuition fee.

#### III.1.6. ACADEMIC RESIGNATION

Students who decide to resign must submit a written request to the Director of the Program. The request should be signed on the seal (materai) by the respective students and parents.

Students resigning are not entitled to any refund of their tuition fee.

Students who have resigned do not lose their eligibility to apply for any program in Universitas Indonesia.

## III.2. STUDY REGULATION

### III.2.1. GRADING APPEAL PROCEDURE

Grading appeal can be exercised if students are not satisfied with the mark(s) or grade(s) given by their lecturer(s). The procedure for grading appeal is as follows:

1. Grading appeal for final marks should be submitted within a maximum of 5(five) working days after the marks have been published by the respective lecturers through the SIAK NG. In the event that the respective lecturers fail to enter the **final marks and/or grades into the SIAKNG** in due time (set in the UI academic calendar) and, as a result, fail to publish the final marks and/or grades in due time, students will automatically reserve the right to get a minimum grade of B (according to the current UI regulation, until otherwise revised or revoked) for the respective subjects. This right does not, by itself, cancel students’ right for grading appeal should they feel that they are entitled for higher marks and/or grades.
2. Grading appeal for marks of mid exams, quizzes and/or papers should be submitted within a maximum of 10 (ten) working days after the marks have been announced by the respective lecturers, unless the announcement are done at the same time with the final marks and/or grades in which case all of the rules stipulated in point a will, instead, apply.
3. First appeal attempt should be made directly by students to lecturers of the respective subjects. If the conclusion is deemed agreeable, involvement of the Program is not necessary. In the event that the result is deemed unsatisfactory, students may proceed to the second appeal attempt by presenting the case to the Program, the Program will take on the case if the following conditions are fulfilled:
  - Students have clearly stated the case in the appeal form and signed it, Appeal Form is provided at the secretariat;
  - In the event that no clear result is produced

in the first appeal attempt, students should ensure that the second appeal attempt (i.e. to the Program) is submitted within a maximum of 10 (ten) working days since the first appeal attempt is made.

4. In the event that the conclusion reached in the **first appeal attempt is deemed unsatisfactory**, students should ensure that the second appeal attempt (i.e., to the Program) is submitted within a maximum of 5 (five) working days since the conclusion of the first appeal attempt is reached. The Program will resolve the appeal within a maximum of 10 (ten) working days since the appeal form is submitted. In the event that the conclusion of the appeal is hindered by any technical matters that are beyond the capacity of the Program to intercede, the process may take more than 10 (ten) working days. The Program will then ensure that the conclusion is made within the earliest time possible.

### III.2.2. DEFERRED EXAMINATION

Students detained from participating in the scheduled exams can request for a deferred examination to the Director of the Program after satisfying the certain conditions. Students should be able to show adequate evidence that explains why they cannot attend the scheduled exams. The evidence must be original and issued by the competent institution. Any manipulative evidence will be considered as violation of academic ethics and conducts in term of fraud and forgery.

#### III.2.2.1. Decease of Core Family Member(s)

Core Family Members refer to (i) parents, (ii) brothers and/or sisters, and (iii) any person, not necessarily related by blood, whose attachment to the respective students are akin to students' parents. Students are given deferred exam in the case of the decease of their core family member(s) during the scheduled exam time. Should there be the case, students should inform the Program within 2 (two) days since the day of the passing. Students should then submit a request letter for deferred exam(s), accompanied by a copy of affirmation letter from the Head of Rukun Tetangga (RT), within a maximum of 5 (five) days since the day of the passing. The Program allows deferment for exam(s) given within a maximum of 5 (five) days since the day of the passing. Beyond this period, students have to be ready to take deferred exam(s) at any time during working hours, as seen fit by the Program.

#### III.2.2.2. Temporary Illness

Students are given deferred exam in the case of temporary illness that requires them to undertake in-hospital sick treatment at the time the exam is held. In this case, students have to inform the Program

secretariat directly (through phone) and immediately at the earliest time possible. Students may also be granted deferred exam if they are strongly advised by the university medical doctor or in Klinik Satelit UI not to attend the exam due to unfavorable health conditions. The program reserves the right to refuse giving deferred exam if students fail to meet conditions stipulated in point (a) and (b) above. Permission for deferring exam(s) depends on the duration of illness. Students have to actively check with the secretariat to find out which exam(s) is or are given deferment. In this case, students have to be ready to take deferred exam at any time as seen fit by the Program.

#### III.2.2.3. Road Accidents

Students are also given deferred exam(s) if they get (severe) road accidents that hinder them from taking exam in due time. In this case, students have to inform the Program secretariat directly (through phone) and immediately. Students should then submit a request letter for deferred exam, accompanied by a copy of official affirmation letter from the local or district police office, which is acquired at the same day of the accidents. In the case that the road accident causes severe vehicle damages that do not extend into significant or severe physical injuries that require in-hospital medical treatment, the deferment will only be given for the exam given on the same day of the accident. Students will then have to be ready to take deferred exam at any time as seen fit by the Program. In the case that the road accident causes severe physical injuries that require in—hospital medical treatment, then the regulations stipulated in previous clause pertaining temporary illness will automatically apply.

#### III.2.2.4. Formal Emissary Duty

Deferred exams may also be given for students whom are away during the scheduled exam time due to formal duty representing the Indonesian government, local government, or Universitas Indonesia. In this case, permission for deferred exams will be limitedly given to any activity that can be categorized as prestigious and important for the government and/or the university. Students should then submit a request letter for deferred exam(s), one week before the scheduled exam(s). The letter should clearly specify the period of students' expected absence. Students should also attach a copy of formal invitation that describes students' participation in the event and the timetable of the event, and a copy of formal affirmation letter from the relevant institution or office.

If the request is granted, students shall be eligible for deferred exam(s) of subject(s) assessed during the agreed schedule. After the agreed schedule has elapsed, the Program reserve as the right to give deferred exam(s) at any time as seen fit by the Program. Notification for deferred exam will be given at least one day in advance through the secretariat. In all cases

students should consult the secretariat regarding both the schedule and place of the deferred exam(s).

**III.2.3. SHIFTING BETWEEN PROGRAM TRACKS**

By default, shifting between program tracks is limited and allowed under certain circumstances.

**III.2.3.1. Shift from Single Degree Track to Double Degree Track**

Shifting between program tracks is applied but under limited requirements with procedures as follows:

- Write a request letter to Director of IUP-FEBUI which should be submitted no later than the beginning of the final exam period in the third semester. The letter should clearly describe strong reasons for the request and be signed on seal by students while parent(s)' signature is also required as acknowledgement;
- Student who applies shifting program track must fulfill application package requirement determined by the proposed partner university;
- The Program will evaluate for any requests submitted and decided to accept the respective request or not;
- A student is allowed to request for shifting between program tracks only once.

**III.2.3.2. Shift from Double Degree Track to Single Degree Track**

Shifting between program tracks is applied but under limited requirements. That is, students should be able to show strong reasons to shift and satisfy all other requirements for switching. Followings are the procedures:

- Write a request letter to the Director of the IUP FEBUI as soon as possible. The letter should clearly describe strong reasons for the request and be signed on seal by students while parents' signature is also required as acknowledgement;
- Student who requests to shift program tracks must get approval from his/her academic advisors and still have possibility to finish the single degree program no later than the maximum period of study;
- The Program will evaluate for any requests submitted and decided to accept the respective request or not;
- A student is allowed to request for shifting between program tracks only once.

**III.2.4. SHIFTING BETWEEN SPECIALIZATION MAJORS**

Under the current university regulation, shifting between specialization majors is not allowed for bachelor programs

**III.2.5. MAXIMUM CREDITS (SKS) TAKEN**

Students in year 1 are entitled to take all the subjects listed, regardless of their academic achievement on those semesters. It is because the curriculum for the first 2 (two) semesters are considered as one packet, i.e. according to the amount of credits given in each semester. Starting from year 2 onward, the maximum number of credits that can be taken is based on the previous semester GPA as follows:

Previous Semester GPA	Maximal Credit Allowed
< 2.00	12
2.00 - 2.49	15
2.50 - 2.99	18
3.00 - 3.49	21
3.50 - 4.00	24

**III.2.6. ATTENDANCE**

Students have to fulfill a minimum of 80% lecture attendance. Maximum absence is 2 times for 2 credit subjects and 3 times for 3 credit subjects. There is no dispensation for organizational activities during class schedule. Program will give dispensation if students are away on formal duty under assignment from Indonesian government or Universitas Indonesia, as long as accompanied by a formal assignment letter. Students have to come on time to the class. Maximum tolerance of lateness is 15 minutes from the prevailing class schedule. Students who come later than 15 minutes are still allowed to attend the class, but will be noted as absent.

**III.2.7. ACADEMIC ETHICS AND CONDUCTS**

Students must honor and maintain academic integrity at all time while studying at the FEBUI. Students are not allowed to conduct academic violations. Several academic violations are mentioned below.

**1. PLAGIARISM**

Plagiarism is the action or practice of taking and using as one's own, the thought or writing of other

person/institution without any acknowledgement. The following acts are considered as plagiarism:

- When paragraphs, sentences, a single sentence or significant parts of a sentence, which are directly copied, are not enclosed in quotation marks and appropriately footnoted.
- When paragraphs, sentences, a single sentence or significant parts of a sentence are paraphrased and summarized without any direct quotations and are not acknowledged, either by footnoting or by other simple reference within the paper.
- When ideas appears elsewhere in printed material of film, is used or developed without reference being made to author of the source of idea.

Infringement of plagiarism is ruled by Rector Decree No.208/SK/R/UI/2009. The sanction is based on the scale of this act which is categorized as follows:

1. Level of plagiarism consisting of 3 (three) parameter, as follows:
  - Writing unit level covering phrase, sentences, paragraph, and sub bab;
  - The whole article or paper or research
  - Thesis

Infringements of plagiarisms in writing unit level are considered lighter than those in thesis.

2. Intentionally or unintentionally

Plagiarism sanctions are as follows:

- Verbal warning;
- Infringement notice that is sent to the respective student and to his/ her parents;
- Zero grade for the assignment or E (fail) grade for the particular subject;
- Will not be allowed to participate in examination or deferred examination for all subjects taken in the semester;
- Especially, for any practice of plagiarism in final essay thesis, the students status will be cancelled and terminated or his bachelor degree will be withdrawn

2. CHEATING

Students must strictly abide to the exam regulations. Exams include any form of written academic evaluations, such as quiz, academic paper, and/or class assignments. Based on Dean Decree No.114/H2.F6.D1/HKPO2.04.SKD/2013, violations of exam regulations that can be categorized as acts of cheating are as follows:

- ◆ Conducted alone (not involving other examinees students):
  - Carrying and or/ using a cheating sheet in any forms, either inside or outside the exam room, during exam process. However, the cheating sheet is permitted to carry if it accords to guidance of the exam question. The cheating sheet must be stamped by the

Program;

- Using any electronic devices such as recorders, calculators, laptops, and mobile phones unless they are explicitly announced otherwise;
- Submit answer sheet after the exam process has completed.
- ◆ Conducted with other examineesl students
  - Looking at other students' work during the exam that strictly require individual secrecy;
  - Show his/her work or answer sheet to other examinees students;
  - Borrow books/notes from other examinees/ students during exam;
  - Communicate with other examines students to change information related to exam answer, either orally, in writing, or by using code gestures;
  - Working together with other students who are outside the exam room in answering the exam questions;
- ◆ Use services of others or jockey services to do examination on behalf of the student.

Cheating sanctions are as follows:

- ❖ **E (fail) grade for all subjects** taken in the running semester which is examined;
- ❖ **Termination of U1** student status if similar infringement is conducted more than once

3. BRIBERY

Students and/or students' parents and-/or students' representatives are strictly prohibited to give lecturers, tutors, and/or academic supervisors any form of gratifications that can be associated in any way with any form of academic favors that may unfairly benefit the students.

Bribery sanctions are as follows:

1. Infringement notice that is sent to the respective student and to his/her parents;
2. Will not be allowed to participate in examination or any deferred examination for one semester;
3. Termination of UI student status.

4. EXTORTION

Students are strictly prohibited to conduct any form of extortions to other students, tutors, lecturers and anyone in charge of academic matters.

Extortion sanctions are as follows:

1. Infringement notice that is sent to the respective student and to his/her parents;
2. Will not be allowed to participate in examination or any deferred examination for one semester;
3. Termination of UI student status.

Other regulations associated with any heavy and criminal violations of academic ethics and conducts are referred to university and/or faculty regulations.

### III.3. LECTURING STRUCTURE

The curriculum is based on the semester-credit system which implies that a subject is weighted against a certain credit per semester. One credit semester includes:

- Fifty-minute lecture per week
- Fifty-minute tutorial per week (not for non-tutorial subjects)
- Fifty-minute self study per week

#### Example:

Three credits is 3 x 50 minutes-lecture in class per week + 3 x 50 minutes-tutorial per week + 3 x 50minute- self study per week. One semester consists of 14 (fourteen) weeks for studying and 2 (two) weeks for examination.

### III.4. STUDY EVALUATION

#### III.4.1. SUBJECT EVALUATION

Evaluation of a subject is conducted through (a) examination, (b) assignments, and (c) observation.

##### III.4.1.1. Examination

Examination will be given in written mode, either as an in-class or take-home, depending on the lecturers' policy. Students are eligible to participate in an examination only if all of the following requirements are fulfilled:

- Registered administratively and academically as students at the IUP—FEBUI for the corresponding semester;
- Are not put under academic restriction/penalty;
- Fulfill a minimum of 80% lecture attendance (a maximum absence of 3 times for 14 week course and 2 times during the 10 week course period) and 80% tutorial attendance (a maximum absence of 3 times for 14 week course and 2 times during the 10 week course period).

To take examination, students must register examination before a mid exam, with procedures as follows:

1. Provide a color photo size 3X4 to secretariat program;
2. Take student card (KTM) which has been sealed by IUP program;
3. Ask academic advisors to sign the Student Study Plan (IRS).

Examinations are given twice in each academic semester in the form of a mid-exam held the mid of academic semester and a final exam given towards the end of academic semester. Lecturers are responsible for preparing and submitting exam papers to the resource center. In addition, lecturers may require students to submit academic papers as partial requirement for the subject.

##### III.4.1.2. Examination Regulation

In order to have a conducive atmosphere during exam, students must obey examination regulations, which are as follows:

- a. Students may enter the examination room 10 minutes before the exam starts;
- b. If students are late 15 minutes after the examination starts, they should ask for permission letter to IUP Secretariat. Students will not be given extra time at the end;
- c. Students are allowed to go to the restroom before the examination starts. Students are not permitted to leave the room for any reason until students finish the exam;
- d. Students should stow their jacket, hat, and bag at the front of the room;
- e. Students only bring student card (KTM) and stationery needed without the pencil case to the desk; other equipment's should be put inside the bag. Students who do not bring student card (KTM) should ask for permission letter to IUP Secretariat;
- f. Students who are identified bringing any communication devices to the desk will be treated as cheating;
- g. Students must sit according to the seat number printed on the desk;
- h. Students must complete the questionnaire (10minutes) and submit it to the invigilators. Exam paper will be distributed after all questionnaires have been submitted;
- i. Once exam papers are shared, the examination begins; students may start doing the exam;
- j. Students should ensure to put their student number and other information needed on the answer sheet;
- k. When the sign for the end of examination has been announced, students must stop working. Students should put the exam paper inside the answer sheet and put them on the desk;
- l. Students leave the room in an orderly manner;
- m. What to bring to the examination desk:
  - a. Student card (KTM)
  - b. Stationery (pen, pencil, eraser, etc)
  - c. Calculator (if allowed; instruction is printed on the exam paper)
- n. What not to bring to examination desk:
  - a. Jacket
  - b. Hat
  - c. Bag
  - d. Books and Notes (except for opened-book exam)
  - e. Gadget
  - f. Communication Devices

##### III.4.1.3. Academic Sanctions

The infringement of exam regulations will cause students to receive penalty and sanction, as follows:

- a. Desisted from entering the exam room;
- b. Considered as an act of cheating.

**III.4.1.4. Evaluation and Grading System**

Every semester students can access Semester GPA and cumulative Grade Point Average (Cumulative GPA) through SIAK-NG. However, cumulative GPA at SIAK-NG does not reflect your real cumulative GPA since it excludes the failed subject. Students should re-calculate their own cumulative GPA using the formula below. The semester GPA will determine the maximum credit points allowed to be taken in the subsequent semester. The GPA will also determine whether a student will be allowed to continue her/his study. Student academic performance in each subject is represented by the final grade given for the subject taken. Under the current UI regulation, the minimum passing grade is C. The program sets the score of 55 as a minimum passing threshold. The lecturer in charge of a particular subject is granted the PREROGATIVE RIGHT to raise the minimum score up to 60. However, students have right to appeal. Students obtaining a final grade of a particular subject below C (D, and E) will be considered as failed and, consequently, should retake the subject. For GPA calculation purpose, the grading system is as follows:

Grade	Point
A	4.00
A-	3.70
B+	3.30
B	3.00
B-	2.70
C+	2.30
C	2.00
D	1.00
E	0.00
I	Incomplete

Incomplete refers to the conditions that students must meet additional requirement to complete in order to get the final grade. In compliance to the new transcript system of SIAK-NG, any grade of C and above, will appear on the academic transcript and will be included in the calculation of the GPA (Grade Point Average). This also applies for retaken subjects. For example, a student retakes a subject of 3 credit points for which he/she previously got a C (2.00) and manages to get an A- (3.70). According to SIAK-NG, both grades will be taken into account and the average grade of the respective subject will be 2.85, i.e. resulting from  $1/6 [2.00 \times 3 + 3.70 \times 3]$ . If a student failed in a retaken subject that has previously been passed, the student will be considered as having failed

that subject. The students are obliged to retake the respective subject. Electives subjects that do not meet the minimum passing requirements can be replaced by another elective subject. However, the previous subject will still have implications on the eligibility of the students for Cum Laude predicate.

Semester GPA is an average grade of all subjects taken in a particular semester i.e GPA is computed as follows:

$$\frac{(\text{Total numeric grade X credit points of every subject in the semester})}{\text{Total credit points taken}}$$

**Total credit points taken**

In case a student retakes a subject, the latest grade will be the one representing the grade of that subject. The example of GPA computation is as follows:

Subject Code	Credit Point	Grade	Weight	Total Points
ECON 21100	3	A	4	$3 \times 4 = 12$
ACCT 21103	2	B	3	$2 \times 3 = 6$
MGMT 21002	3	C	2	$3 \times 2 = 6$
MGMT 23005	3	A	4	$3 \times 4 = 12$
MGMT 22083	3	D	1	$3 \times 1 = 3$
ECON 23200	3	E	0	$3 \times 0 = 0$
	17			39
Semester GPA = $(39/17) = 2.29$				

Cummulative GPA is an average grade of all subjects taken in taken during the study in FEBUI. The GPA is computed as follows:

$$\frac{(\text{Total numeric grade X credit points of every subject})}{\text{Total credit points taken}}$$

**Total credit points taken**

**Important: For semester evaluation or current GPA calculation, students should calculate the GPA based on the formula above instead of taking the GPA calculation from SIAK-NG directly, as SIAK-NG does not take all the results into account and, hence, considers only passed subjects. Thus, it does not represent the real picture of student academic performance.**

**III.4.2. GRADUATION**

Evaluation for graduation is conducted after IUP students completed their study at FEBUI and at a partner university overseas. Based on Rector Decree number 491/SK/R/UI/2004, in order to be included in the graduation process, students must meet the requirements as follows:

- Enrolled as students at Universitas Indonesia both administratively and academically;
- The whole of their study period does not exceed the maximum period of study (12 semesters) allowed by the regulation of Universitas Indonesia;
- Have completed all compulsory subjects and/or assignments given with minimum compulsory credits at the IUP-FEBUI with a minimum GPA of 2.00 and have completed all the subjects that should be taken at the partner university overseas. In this case, the partner university will notify the IUP-FEBUI.
- Students graduated from the partner university in time with the graduation period of UI, UI will not make any adjustment in granting graduation eligibility with partner universities' schedule.
- The following procedure must be fulfilled for students to be eligible for graduation:
- Students provide final result transcript and official written document from the partner university stating the students' completion of the course.
- Students fulfill all administrative and financial obligations at UI and therefore eligible to obtain their certificates.
- Students complete all graduation registration procedure that will be conducted online.

The following are the matters pertaining to graduation process that students must pay attention to:

- Having declared students are eligible for graduation, the faculty will process a letter of study completion *Surat Keterangan Lulus* (SKL). However, final transcript and certificate will have to be processed at the university level along with graduates from other faculties.
- Once the certificate is ready, students will receive the certificate by turning in their SKL.
- Students who have written a final thesis as part of their study requirement must follow the official thesis submission procedure set forth by the faculty which includes uploading the abstract on UI's website and provide both hard copy and soft copy for UI.

#### III.4.2.2. Credit Points Requirement

While at IUP-FEBUI, students are required to complete a minimum of 72 compulsory credits for those transferred to partner universities with a normal study length of two years. The 72 compulsory credits consist of:

- 66 credits for compulsory subjects at university, faculty, department and the IUP-FEBUI level and,
- 6 credits for elective subjects.

For those with normal study length of 18 months at partner universities must complete a minimum of 78 compulsory credits.

Specialization is to be taken at the second stage of the student's study overseas. All subjects required to complete specialization must be fulfilled considering that the respective subjects are exempt from FEBUI.

The remaining subjects required to complete a chosen major at the partner university are treated as equivalent to 72 credits (normal study length of two years at partner universities) or 66 credits (normal study length of 18 months at partner universities) from FEBUI. It is based on FEBUI regulation that the *Sarjana Ekonomi* degree can only be awarded if the student passes 144-146 credits (depend on students' major).

As for the single degree students, they must have completed 144-146 credits (depend on students' major) to earn the degree, consisting of:

- 132 or 133 credits for compulsory subjects at university, faculty, department and the IUP-FEBUI level, and
- 11 or 12 credits for elective subjects.

#### III.4.3. EVALUATION FOR STUDY DISCONTINUATION

During their study at Universitas Indonesia, students' academic performance will be evaluated periodically. Students fail to fulfill the minimum assessment will not be allowed to continue their study at the IUP-FEBUI. The criteria for study discontinuation for International Undergraduate Program are as follows:

- Students failing to obtain 24 credits passed with a minimum grade C in all subjects taken up to the first 2 regular semesters;
- Students failing to obtain 48 credits passed with a minimum grade C in all subjects taken up to the first 4 regular semesters;
- Students failing to obtain 72 credits passed with a minimum grade C in all subjects taken up to the first 6 regular semesters;
- Students failing to obtain 96 credits passed with a minimum grade C in all subjects taken up to the first 8 regular semesters;

- Students failing to obtain 120 credits passed with a minimum grade C in all subjects taken up to the first 10 regular semesters;
- Students failing to finish study in 12 semesters;
- Students failing to register administratively and or academically for 2 (two) consecutive semesters;
- Students received academic sanction(s) for severe infringement of the IUP-FEBUI regulations.

Any nonalignment in administrative and academic regulation should always be resolved by referring to the academic regulation compilation book of Universitas Indonesia.

## IV. ACADEMIC SUPORT FACILITIES

### IV.1. FACILITIES OF FEB UI

#### IV.1.1. RESOURCE AND LEARNING CENTRE

The FEBUI Resource and Learning Centre's Collection comprises books, magazines, journals, proceeding, undergraduate thesis, postgraduate thesis, and dissertations, apprenticeship report, research report and other materials including audio visual materials such as CD, CD—ROM, microfilm, micro disk. Additionally, online databases are also available which consists of thousands of worldwide journals in economics, business, management industries, social science in Pro Quest database and JSTOR. Accessing Database through internet connection besides (JUITA) requires password and ID which updated every month. Password and ID information can be obtained from the resource and learning center, FEB UI resource and learning center also has hotspot for wireless internet access. For further information on wireless internet access may contact the PPSI at *Pusat Pelayanan Mahasiswa Tepadu UI*. Students are also encouraged to make the best use of the University library outside the faculty.

#### IV.1.2. ENGLISH SELF-ACCESS CENTRE (ESAC)

English Self-Access Centre is a facility provided by FEB UI for its students to study English independently. The objectives of ESAC are as follows:

- Providing additional study facilities outside English course class,
- Offering opportunities for students to conduct self diagnose,
- Providing opportunities for students to improve their English language skills (listening, speaking, reading, and writing) and based on their interest,
- Providing materials for practicing TOEFL, IELTS test so that students are well-trained to improve their scores,
- Providing English short courses for students, lecturers and staff (TOEFL Preparatory Classes, General English, English for Academic Purposes, English for Business, and other classes tailor made according needs),
- Conducting events/activities which trigger students to improve their English ability namely speech contest, scrabble competition, boggle, up-words, etc. those activities can be initiated by ESAC or students which can request to ESAC.

Facilities of English Self-Access Centre are as follows:

- Language Laboratory
- Discussion Corner
- Presentation Room
- Computer corner
- Listening Corner
- Video Corner
- Study Room
- Consultation Room

### SERVICE HOURS

All the facilities in ESAC can be used by students with time table as follows:

Monday - Friday : 08.00 - 17.00 WIB

Saturday : 08.00 - 13.00 WIB

ESAC is located on fifth floor FEB UI resource and learning center.

### IV.1.3. CAREER DEVELOPMENT CENTRE

Faculty of Economics and Business Universitas Indonesia has established Career Development Centre (CDC FEB UI), a unit under Student Affairs FEB UI, which become facilitator between companies and future professional work force from FEB UI, especially for in campus recruitment process. The Objectives of the FEB UI Career Development Centre:

- Shortening the waiting time for graduates from graduation until getting a job.
- Matchmaking the FEB UI graduates with companies that suit both their skills and qualifications.
- Providing professional recruitment services to companies in the form of vacancy publications,
- FEB UI graduates database service, psychological tests and rooms.

Office of career Development centre is located on:

**Faculty Building 1rd Floor**

**Faculty of Economics and Business**

**Universitas Indonesia**

**UI Campus, Depok, 16424**

**Telp. : 021-7272425 ext 142**

**Fax. : 021-7863567**

**E-mail : [careercenter@fe.ui.ac.id](mailto:careercenter@fe.ui.ac.id)**

**Website : <http://www.fe.ui.ac.id/cdc>**

### IV.2. FACILITIES OF IUP-FEB UI

UI Depok campus is one of the largest campus in Indonesia. It provides students with a variety of academic and social activity. Depok itself is located at south of Jakarta and is reachable by various means of road transportation, including bus and train. Situated in a fast growing city, the campus is surrounded by various economic and business activities that provide students with many necessities to enjoy. It will not be difficult for students to find affordable housing to rent, restaurants and coffee shops to eat at, and other interesting places to visit.

Movie theatres and shopping centers are available and nearby. The campus also offers student boarding, sport center, canteens, small restaurants, and mini markets. The spacious campus, with its fresh, lush and quiet environment also allows students and outside residents to do jog and cycle inside the campus. Plenty of parking spots are also available for students who drive to campus. A free in campus bus is also available for those who take the bus or train. The train station is located directly beside the campus while the sheltered main bus stop is situated near the entrance of the campus. Living cost is relatively low and students will enjoy being in this campus town while pursuing their study. Facilities in the international undergraduate class follow international standards in order to provide students with the best experience possible. Besides the facilities that are also provided for all FEB UI students, students of the IUP-FEB UI program can enjoy additional facilities.

### CLASSROOMS

Classrooms are fully air conditioned and specially designed for small capacity, allowing more intensive interaction between lecturers and tutors with students. The classrooms are equipped with a state of the art technology of teaching devices, such as computer and in-focus with stereo set, retractable wall screen, and glass board. The program currently has two theatre-style classes. In addition, the program also has another three classrooms with free moving chair configuration that allows for comfortable discussion session, two of them can be interconnected into one big room if needed.

### STUDENT LOUNGE

A contemporary designed cozy lounge, equipped with comfortable sofas and cable-television which allows students to watch international news while studying or resting. The student lounge also serves as the center of student social activities.

### COMPUTER ROOM

Familiarity with the latest computing technology and access to internet are crucial for the success of students during study. The program provides a computer room with restricted access for the IUP students only. Students are free to use the computers to browse internet or to work on assignments. The computer room is equipped with a printer and 30 computers that are linked to internet connection.

### RESOURCE CENTRE

The resource center is responsible for processing student administrative registration, arranging time schedule for tutorials and lectures, arranging time schedule for exams, and building student database. This office will also provide students with any resource needed for class, supplies, assignment, promotion kits, information, and any other resources. All the facilities mentioned above have been built with high quality to reflect the spirit of the program for high achievement and high standard quality. The program plans for further development of the IUP area and its facilities in the years to come, depending on the growing needs of the program.

## V. THE IUP-FEB UI MECHANISM

### V.1. DEGREE AND SPECIALIZATIONS OFFERED

#### V.1.1. DUAL DEGREE

The international dual degree program consists of two stages. In the initial stage, the first-two years (i.e. 72 credits) or an equivalent of two and a half years (i.e. 78 credits) are to be taken at the FEB UI, while in the second stage the second-two or one and a-half years are to be taken at the selected partner university abroad to fulfill an equivalent of 144 UI credits as required by the UI regulation.

To continue study abroad, students should apply to universities that have dual degree collaborations with the FEB UI. Students can apply to a maximum of two universities. The respective university reserves the right to reject a student application if he/she does not fulfill the entry requirements for transferred study as agreed upon by both the FEB UI and its respective partner university abroad. In the event that their application to a particular university is rejected, students are free to choose another university to apply to.

While at the IUP-FEB UI, students take and pass all the compulsory subjects, while they are still allowed to change failed elective subject(s) with another elective subject(s) as long as the subjects are in the list of elective subjects. However, the minimum amount of credits taken for compulsory subjects passed should meet the requirement for transfer eligibility. Students should check with the Secretariat for the list of compulsory subjects that can be taken for each specialization. Under the dual degree collaboration agreement between the FEB UI and its respective

partner(s), it is agreed that passed subjects at the FEB UI that fall under the subject mapping are waived and treated as transferred subjects by the respective partner(s). Therefore, students are not required to take these subjects anymore during their study abroad.

Students can choose specialization majors at the second stage of their study, i.e. when they are transferred to the partner universities overseas. Availability of specialization majors varies among university partners. **Students should ensure that their chosen specialization majors are in line with the default specialization at the FEB UI in which they are entitled to.** Upon completion of the second stage of their study, students will be awarded bachelor degree from the respective university overseas and *Sarjana Ekonomi* from UI. Degree title may vary among partner universities. Students should ask the respective universities to send a formal notification of study completion to be allowed to join the graduation at UI.

#### V.1.1.1. Program Offered in Partner University for Dual Degree

A bachelor degree awarded and courses specialization offered might be different among partner universities. Therefore, students must aware and understand this. Followings are summary program offered in partner universities while detail information can be seen in the next chapter.

## THE IUP-FEB MECHANISM

University	Available Major	Available Scheme	Bachelor Degree Offered	Fee
<b>The University of Melbourne – Faculty of Economics and Business</b>  <a href="http://www.unimelb.edu.au">www.unimelb.edu.au</a>	Accounting	2+2 (72 credits) - July and February intake	Bachelor of Commerce	Tuition Fee: AUD 41,120/year
	Management			Living cost: AUD 28,000 – 37,000/ year
	Economics

**V.1.1.1.1. THE UNIVERSITY OF MELBOURNE**  
**FACULTY OF ECONOMICS AND BUSINESS**

Faculty of Economics and Business at the University of Melbourne will award a Bachelor of Commerce (B.Com) for students finishing the joint degree program.

Choices of course specialization are:

- Accounting
- Business
- Economics
- Finance
- Management
- Marketing

More information can be found at:

- Faculty of Economics and Commerce website: <http://www.econ.unimelb.edu.au>
- Bachelor of Commerce website: <http://www.bcom.unimelb.edu.au>
- The website for future students: <http://futurestudents.unimelb.edu.au>

- Bachelor of Commerce website: <https://www.business.unsw.edu.au/degrees-courses/undergraduate/bachelor/commerce-bcom>
- The website for future students: <http://www.international.unsw.edu.au/>

**V.1.1.1.3. THE UNIVERSITY OF QUEENSLAND**  
**FACULTY OF BUSINESS, ECONOMICS AND LAW**

The Faculty of Business, Economics, and Law at the University of Queensland offers 3 choices of bachelor degrees, i.e. Bachelor of Commerce (B.Com), Bachelor of Economics (B.Econ), and Bachelor of Business Management (B.Bus.Man) in the dual bachelor degree program with the FEB UI. Students who choose University of Queensland can choose one of the following schemes. The first scheme, student must obtain 72 credits of academic credit from FEB UI and complete 4 semesters (2 years) at UQ. The second scheme, student must obtain 78 credits from FEB UI complete 3 semesters (1.5 years) from UQ.

**V.1.1.1.2. THE UNIVERSITY OF NEW SOUTH WALES**

Business School at the University of New South Wales will award a Bachelor of Commerce (B.Com) for students finishing the joint degree program.

Choices of course specialization are:

- Accounting
- International Business
- Economics
- Finance
- Human Resource Management
- Marketing
- Management

More information can be found at:

- Business School website: <http://www.international.unsw.edu.au/faculty/business-school-undergraduate-degree-programs>

Bachelor of Business Management offers 8 majors:

- Business Economics
- E- Business
- Human Resources Management
- International Business
- Marketing
- Real Estate and Development
- Advertising
- Sustainability

Bachelor of Commerce offers 3 majors:

- Accounting
- Business Information Systems
- Finance

Bachelor of Economics offers 5 majors:

- Business and Industry
- International Trade and Finance
- Quantitative Methods
- Natural Resources and Environment
- Economics and Public Policy
- More information can be found at:
- of Business, Economics, and Law: [www.bel.uq.edu.au](http://www.bel.uq.edu.au)

### V.1.1.1.4. THE UNIVERSITY OF ADELAIDE FACULTY OF ECONOMICS AND BUSINESS

The Faculty of the Professions at the University of Adelaide offers three choices of bachelor degrees, i.e. Bachelor of Commerce (B.Com), Bachelor of Economics (B.Econ), and Bachelor of Finance (B.Fin), in the dual bachelor degree program with the FEB UI.

Bachelor of Economics and Bachelor of Finance have no specific major, while Bachelor of Commerce offers 5 majors:

- Marketing
- Management
- International Business
- Corporate Finance
- Accounting

More information can be found at:

- Faculty of the Professions: <http://www.adelaide.edu.au/professions/undergraduate/>
- Information for Future Students: <http://www.adelaide.edu.au/student/future/> Prospectus for International

### V.1.1.1.5. VICTORIA BUSINESS SCHOOL VICTORIA UNIVERSITY OF WELLINGTON

Victoria Business School at Victoria University of Wellington will award a Bachelor of Commerce (B.Com). Students who choose Victoria University of Wellington can choose one of the following schemes. The first scheme, student must obtain 72 credits of academic credit from FEB UI and complete 4 semesters (2 years) at VUW. The second scheme, student must obtain 78 credits from FEB UI complete 3 semesters (1.5 years) from VUW.

Major can be taken from the following specialization:

- Accounting

- Economics
- Finance
- Human Resource Management and Industrial Relations
- Information systems
- International Business
- Management
- Marketing

- More information can be found at:
- General information: <http://www.victoria.ac.nz/>

## V.1.1.1.7. THE TILBURG UNIVERSITY

### FACULTY OF ECONOMICS AND BUSINESS ADMINISTRATION

The Faculty of Economics and Business Administration at the University of Tilburg will award a Bachelor of Science (B.Sc) for students finishing the dual degree program International Business administration. B.Sc degree can be taken from the following specialization choices:

- International Business & Administration
- Economics

More information can be found at:

- General Information: <http://www.tilburguniversity.edu/>
- Prospective students: <http://www.tilburguniversity.edu/education/bachelors-programmes/>

**V.1.1.1.8. THE UNIVERSITY OF GRONINGEN  
FACULTY OF ECONOMICS AND BUSINESS**

The Faculty of Economics and Business at the University of Groningen will award a Bachelor of Science (B.Sc) degree in International Business for students finishing the dual degree program. Students who choose University of Groningen can choose one of the following schemes. The first scheme, student must obtain 72 credits of academic credit from FEB UI and complete 4 semesters (2 years) at RuG. The second scheme, student must obtain 78 credits from FEB UI complete 3 semesters (1.5 years) from RuG.

More information can be found at:

- General Information: <http://www.rug.nl/bachelors/in-english>
- General information of the Faculty of Economics and Business: <http://www.rug.nl/bachelors/international-business/programme>
- Prospective students: <http://www.rug.nl/education/praktische-informatie>

**UNIVERSITY OF BIRMINGHAM**

**V.1.1.1.9. BIRMINGHAM BUSINESS SCHOOL**

Birmingham Business School will award a Bachelor of Science. Student who choose University of Birmingham have must complete 72 credits from FEB UI and complete 4 semesters (2 years) at Birmingham Business School.

Major can be taken from the following specialization:

- Economics
- Money, Banking, and Finance
- Business Management

More information can be found at:

- General Information: [www.birmingham.ac.uk](http://www.birmingham.ac.uk)
- Birmingham Business School: [www.birmingham.ac.uk/schools/business/](http://www.birmingham.ac.uk/schools/business/)
- Undergraduate Study: <http://www.birmingham.ac.uk/schools/business/courses/ug/index.aspx>

**V.1.2. SINGLE DEGREE**

Students choosing this track are still required to spend a full semester abroad either in semester 6 or semester 7. Studying abroad serves as credit earning in the Single Degree track. All passed subjects abroad

will be waived and regarded as transferred subjects in the program curriculum. Similar to the Dual Degree track, students taking the single degree track are required to get a minimum of 144 credits (including the transferred credits) to be regarded as eligible for graduation. Students completing this track will be awarded a degree of Sarjana Ekonomi (SE) from UI.

The Program offers three (3) specialization majors choices under three (3) specialization majors as follows:

1. Financial Economics (Economics)
2. International Business Management (Management)
3. Accounting with reference to Finance (Accounting)

## V.2. GUIDANCE TO UNIVERSITY TRANSFER

Students nearing completion of study at the FEB UI can start applying for transfer to partner universities. The eligibility for admittance in the chosen university depends on the students' ability to meet entry requirements set forth by the respective university.

### V.2.1. APPLYING TO PURPOSED UNIVERSITY

The IUP-FEB UI will help students in applying for the purposed university. The IUP-FEB UI will also assist student to communicate with the overseas university to process acceptance letters. However, students are also free to apply and communicate directly to the purposed university. For some partner universities, the FEB UI has made arrangement with their respective representative in Indonesia to assist with all admission and travel arrangement to the chosen University. Students should be well aware that they are responsible for meeting all the admission requirements as requested by the chosen university.

### V.2.2. TRANSFER ARRANGEMENT

Students are eligible for entry into second-year level of undergraduate study in the corresponding partner universities. Eligibility of transfer will depend upon student academic performance achieved during study at the FEB UI and fulfillment of academic and English proficiency requirements set forth by partner universities. Before students choose a partner university, they must consult with and get approval from their academic advisors. Each student may only choose two partner universities to be transferred to. Students are obliged to get advisory signature on their form and sign the academic report form.

### V.2.3. TRANSFER PROCEDURES

Transfer process for dual degree program at the IUP-FEB UI is conducted twice a year for partner universities in Australia and once a year for those in the Netherlands. Transfer process starts in February for mid-year admission (both Australian and the Netherlands partners) and in October for February admission (Australian partners). Transfer procedures will be as follows:

- Students must attend a transfer briefing organized by the program. In this briefing, students will get all the necessary information about transfer process and requirements, as well as the key dates for application submission. Students should always check on the key dates regularly, as it is imperative that they have to submit all the required documents within the key dates. Information on the transfer procedure, required transfer documents and key dates will be announced on the announcement board and/or in the SIAK NG;
- Students should consult with their academic advisors and have them sign the transfer approval forms. The consultation should cover university and major choices, possibilities of students' future career paths, students' study interest, and financial viability;
- Students have to complete and pass min. 72 credits under the 2 + 2 scheme or min. 78 credits under the 2.5 + 1.5 scheme at UI with a GPA meeting the minimum required by respective partner universities.
- Students are required to settle all administrative matters, such as tuition fees, clearance report of library books take-out, and signed statement letter on academic result reported at partner universities before transferring to partner university.
- Students should submit completed transfer application form. Application form can be obtained from various sources, such as by downloading from the partner university website, from the representative office (if any), and from the printed partner university prospectus. At this stage, students should have determined one university of choice. Students are still given the opportunity to opt for another university as a second priority.
- Students should submit all transfer documents (application form and other supporting documents) in 2 (two) copies per university to the Program within the key dates. The Program will check on the completeness of the documents and have the students sign a submission form. If students fail to submit the required documents within the specified key dates, they have to assume the responsibility of sending the documents on their own and submit one (1) copy to the Program;
- The Program will proceed by sending the documents to the respective partner universities; the application process at the partner universities

## THE IUP-FEB MECHANISM

normally takes up to 8 weeks until acceptance decision is made. Notification of the decision will be sent via e-mail and/or post by the respective universities. Students should be well aware that the letter of approval that they receive shall be treated as conditional offer until they fulfill all the requirements, including the final semester result;

- Following the completion of the final semester the Program will send students' full transcript officially to the respective partners;

- Students will receive full offer from the respective universities within one (1) or two (2) weeks. Students should submit a copy of the offer letter to the Program;
- Students should then start the visa application process on their own under the guidance of the respective universities. It should be noted that the application process may start earlier in the Netherlands.

The following box describes the details of application package for transferring required by partner universities.

University	Application Package	Application Deadline
Partner Universities in Australia and in New Zealand	<ul style="list-style-type: none"> <li>• Completed application form</li> <li>• TOEFL/IELTS certificate</li> <li>• Copy of passport</li> <li>• Academic transcript</li> <li>• Colour photograph 4x6</li> <li>• Transfer Form (TF) from IUP Secretariat</li> <li>• Print out IDM from SIAK</li> <li>• Copy of Outbound certificate</li> <li>• Softcopy (PDF) of all documents sent in CD</li> </ul>	<p>Early October (February intake)</p> <p>Early March (July intake)</p>
Partner Universities in the Netherlands and United Kingdom	<ul style="list-style-type: none"> <li>• Completed application form</li> <li>• TOEFL/IELTS certificate</li> <li>• Copy of passport</li> <li>• Academic transcript</li> <li>• Colour photograph 4x6</li> <li>• Transfer Form (TF) from IUP Secretariat</li> <li>• Print out IDM from SIAK</li> <li>• Copy of Outbound certificate</li> <li>• Certified copy of high school certificate in both Bahasa Indonesia &amp; translation in English</li> <li>• Certified copy of finak high school academic transcript in both Bahasa Indonesia &amp; translation in English</li> <li>• Motivation letter</li> <li>• Curriculum vitae</li> <li>• Recommendation letter</li> <li>• Softcopy (PDF) of all documents sent in CD</li> </ul>	<p>End of February (September intake)</p>

The visa application processes varies among countries. Generally it will take 3 to 6 weeks to complete. Additional documents required for visa process are:

1. Health Certificate
2. Criminal Clearance Letter
3. Money Deposit Guarantee

### V.2.4. ENTRY REQUIREMENTS

Upon completion of a minimum of 72 credits or 78 credits at FEB UI, students can be transferred to the proposed partner universities. Each university has different entry and application package requirements as well as deadline of submission period.

## THE IUP-FEB MECHANISM

The following box describes the details of transfer requirements of each university.

University	GPA	English Proficiency	Other requirement	Scholarships

### V.3. GUIDANCE TO CREDIT EARNING

#### V.3.1. CREDIT EARNING MECHANISM

The mechanism for credit earning at the overseas university for Single Degree students is as follows:

- Credit earning can be achieved through either student exchange program or self-funded scheme
- Under student exchange program, students must satisfy certain requirements, i.e. have a minimum cumulative GPA of 3.3 and a minimum IELTS score of 6.5 or TOEFL score of 580. The selection process for eligibility is conducted by the International Office UI on the basis of academic performance, interview, and English proficiency;
- Students under the exchange program pay tuition fees to home university in accordance with the prevailing rate of the Program (IUP-FEB UI). The student exchange status will be given to the students;
- Under the exchange program, choices of university are limited to those having student exchange agreements with UI. Students who are interested in taking the exchange program must get information and apply the process of registration in international office at university;
- Besides the exchange program scheme, student can choose the self-funded scheme for credit earning mechanism. In this scheme, students pay tuition fees to host university in accordance with the prevailing rate of the host university;

- Students preferring the self-funded scheme are generally allowed to choose any designated university as long as it is approved by the Program;
- The number of subjects that should be applied by students in partner universities is based on normal load per semester of the particular partner university. For example: Australian universities have normal load per semester for 4 (four) subjects while the Netherlands universities are 6 (six) subjects;
- The selection of subjects must get approval from their academic advisors. Before determine which subjects to apply, students must concern the prerequisite of the subjects;
- Students are strongly recommended to do a period of transfer for credit earning at the overseas university in semester 6.

#### V.3.2. CREDIT EARNING APPLICATION PROCEDURES

Credit earning procedure for single degree students is as follows:

- The Program will organize a special session, which is called “Academic Talk” session, on credit earning application procedure and mechanism. In this briefing, students will get all the necessary information about credit earning mechanism and requirements, as well as the key dates for application submission. Students should always check on the key dates regularly, as it is imperative that they have to submit all the required documents within the key dates. Information on the credit earning mechanism, required documents and key dates will be announced on the announcement board and/or in the SIAK NG;

- After following the credit earning mechanism mentioned above, students opting for self funded scheme should then send all the necessary documents (request form / letter and other supporting documents) to the designated university and submit one (1) copy to the Program immediately, while students joining the exchange program should submit all the necessary documents and in one (1) copy to the International Office and Program as well within the key dates.
- Notification letter of approval will be either sent via the Program or directly to the respective students. In the case of the latter, students should notify the Program immediately.

career options that deal with marketing research, promotions, branding, sales and distribution and marketing consultant. Graduates with specialization in accounting can work in Indonesia as a professional in an accounting firm, internal auditors, management accountants, or public sector accountants.

### V.5. FEES

Students of IUP are required to pay admission and tuition fees. The amount of both the admission and regular tuition fee is officially enacted through the Rector Decree each year. Fee schedule, for second part of the dual-degree program at partner universities are

The amount of fees is as follows:

Fees	Amount
Admission fee	Rp 36.000.000,-
Tuition Fee for active status at FEBUI (Singel Degree and Joint Degree)	Rp 36.000.000,- per semester
Administrative charge during studying at partner university*	Rp 2.000.000,- per semester
Administrative charge on academic study leave	25% of tuition fee

\* ) Subject to determine for special case such as student exchange program, etc.

\*\* ) Please note that when the payment is made beyond the due date, students are subjected to pay additional fee (fine) of which amount is determined every semester by the Rector.

Students should then start the visa application process on their own under the guidance of the respective universities. It should be noted that the application process may start earlier in the Netherlands. Students opting for ASEAN universities for credit earning program are not required to apply for any visa. It should be noted that all students studying overseas are still liable for paying annual administrative charge to the Program, with the amount set forth under the faculty regulation.

set out differently according to the policy established by each respective partner university.

### V.4. CAREER OPTIONS FOR GRADUATES

Graduates from International Undergraduate Program can choose career options which vary depending on the specialization taken in partner universities overseas. For example, graduates with specialization in Economics can work as economic analysts, academics, bankers, or as public service employees. They also have options to work in government sectors, research institutions or in private sector. Graduates with specialization in finance can work as finance and investment analyst, investment bankers or other professionals at the stock exchange. Graduates with specialization in marketing can have

### V.6. LECTURES, TUTORIALS, AND LABORATORIES

Both lecturers and tutorials are delivered in English. IUP-FEB UI is responsible for selecting and assigning lecturers and tutors, in coordination with the three departments within the Faculty of Economics and Business. The resource center arranges timetables for lectures, tutorials, and lab sessions. Student will receive a set of syllabus before courses start at the beginning of semester. Laboratory sessions will only apply for certain courses as mentioned in the syllabus. To honor Intellectual Property Rights, IUP-FEB UI strictly forbids any illegally copied books to be used in the classroom. Under IUP-FEB UI regulation, only original textbooks are allowed.

## VI. CURRICULUM

The curriculum of the bachelor program at IUP-FEB UI is further classified into 4 groups of subject category:

1. Compulsory Subjects at University level
2. Compulsory Subjects at Faculty level
3. Compulsory subjects at the Department level
4. Elective Subjects

Compulsory subjects at the university level are subjects held by the university and must be taken by all the undergraduate students in Universitas Indonesia. Compulsory subjects at the faculty level are subjects that must be taken by all the undergraduate students of FEB UI while compulsory subjects at the Department level are subjects that must be taken by the particular students taking the particular program track whether it is economics, management or accounting.

Starting year 2, students are offered several elective subjects. Students can take elective subjects according to their specialization of interest. For example, students interested in taking the Economics specialization would be advised to take elective subjects of ECEU code. This does not restrict students to choose other subjects which are not directly related to their intended specialization.

Besides compulsory and elective subjects, students also should concern to prerequisite subjects. Prerequisite subjects are subjects that are required to be taken by students before they can advance to a particular subsequent subject. Students are not necessarily required to pass the prerequisite subjects before they are eligible to take the subsequent subjects.

Curriculum is undertaken based on a semester credit system where a subject is weighted against a certain credit per semester. One credit semester includes fifty-minute lecture, fifty-minute tutorial (not for non-tutorial subjects), and fifty-minute self study. To be

eligible for Sarjana Ekonomi degree, students must pass minimum of 146 credit points.

Students of joint Degree Program must take minimum of 72 compulsory credit points at IUP FEB UI and take the remaining subjects required to complete a chosen specialization at the partner university which is treated as equivalent to 72 credits from FEB UI. For those with study length of 18 months, students must complete a minimum of 78 credits. Single degree students should take at least 1 semester at the partner university with the minimum 50% subject in the respective semester with the normal load.

The maximum duration of the entire program (either Dual Degree or Single Degree) is six years, excluding academic leave(s) and penalty.

### VI.1. SUBJECT CODES

Based on curriculum classification, the subject codes are as follows:

1. UIGE refers to compulsory subject at the university level
2. ECFE refers to compulsory subjects at the faculty level
3. ECEU refers to compulsory subjects at the Department of Economics
4. ECMU refers to compulsory subjects at the Department of Management
5. ECAU refers to compulsory subjects at the Department of Accounting.

### VI.2. CURRICULUM STRUCTURE OF THE IUP-FEB UI

As mentioned in the previous part, the curriculum structure of IUP-FEBUI consists of compulsory subjects at university, faculty and department

## CURRICULUM

level. In addition to compulsory subjects, the curriculum also consists of elective subjects. The following subsection provide the details of

sequence of each subjects for each major; i.e. Economics, Management and Accounting.

### LIST OF ELECTIVE SUBJECTS FOR ACCOUNTING

The following table provides the list of elective subject for Accounting students:

No	Subject Code	Subject	Credit
1	ECEU602002	Development Economics	3
2	ECEU601101	Mathematics for Economics and Business II	3
3	ECEU606100	HR and Labor Economics	3
4	ECEU605100	Public Sector Economics	3
5	ECEU603200	International Economics	3
6	ECEU602062	Islamic Economics and Finance	3
7	ECMU601007	Introductory Management Science	3
8	ECEU600201	Macroeconomics 1	3
9	ECEU601101	Mathematics for Economics & Business II	3
10	ECMU604009	Human Resource Management	3
11	ECMU603030	Retail Business	3
12	ECEU603100	Monetary Economics	3

### VI.3. SUGGESTED SEQUENCE OF SUBJECT TAKING

This subsection provides the details of suggested sequence of subject taking. The first part will provide the information of suggested sequence of subject for dual degree program followed by the suggested sequence for single degree program.

### VI.3.1. DUAL DEGREE

For dual degree program, each major has different number of credit requirements during the first phase (2 years at UI), which is vary from 72 to 73 credit. In particular, Economics and Accounting students must earn 73 credits during their first two year at UI while for Management students must earn 72 credits

#### VI.3.1.1. ECONOMICS

The table below provides the suggested sequence for Economic students from dual degree program:

Economics			
No.	Code	Course Title	Credit
<b>Semester 1</b>			
1	UIGE600001	Integrated Character Building A	6
2	UIGE600003	Academic English	3
3	ECEU600100	Introductory Microeconomics	3
4	ECEU601200	Statistics for Economics and Business I	3
5	ECEU601100	Mathematics for Economics and Business I	3
6	ECMU601001	Introductory Business	2
		<b>Subtotal</b>	<b>20</b>

Subject Code	UIGE 60001x	
Prerequisite	none	
<p>This subject aims to form a basic religious life of the students to develop good sense of morality as future leaders. This subject uses the following methods: Collaborative Learning (CL) and Problem Based Learning (PBL) so that students can communicate and cooperate within groups, managing information effectively, think critically, act rationally, responsible in increasing belief and devoutness, and applying problem solving stages scientifically and based on their belief. This subject is to be taken in the regular S-1 class and will be delivered in Bahasa.</p>		

### VII.2. SUBJECTS WITH CODE OF ECFE

Subject	Cooperatives (2 credit points)	
Subject Code	ECFE 600002	
Prerequisite	none	
<p>This course is designed to give students a basic understanding of the theories and practices of cooperatives in Indonesia and criticize the drawbacks faced by these institutions. This subject also allows students to understand the development and relevance of micro, small and medium enterprises in Indonesia and globally. Students will also discover other institutions supporting these cooperatives and SMEs.</p>		

Subject	Non Economic Motives and Reasoning on Business (3 credit points)	
Subject Code	ECFE 600003	
Prerequisite	none	
<p>This course is required to take for all students because it is necessary for students to understand that every action and decision are made based on analysis and assumptions that are believed and hold. The course emphasizes students to learn and get knowledge from their own experience that is from their involvement directly or indirectly in life together. Students will be required to do observations and interviews directly to communities so that it will increase student's sensitivity on reality of society's life and give learning experience needed for students in making their own conclusions about society's life.</p> <p>Learning strategy of this course are as follows:</p> <ol style="list-style-type: none"> <li>1. Student centered : students should be able to control themselves</li> <li>2. Interviews and observations.</li> </ol>		

Subject	Introductory to Business Communication & Academic Writing	
Subject Code	ECFE600004	
Prerequisite	none	
<p>This course aims to equip students with basic communication skills as they embark on their study in university. It is designed to prepare students with the ability to read and listen effectively so that students may get a better understanding on the information they received. By getting a good understanding of information, students are expected to be able to give a good respond by firstly understanding the information they have received.</p>		

## SUBJECT DESCRIPTION

### VII.3. SUBJECTS WITH CODE OF ECEU 602071

Subject	Academic Writing (3 credit points)	
Subject Code	ECFE 600004	
Prerequisite	none	
Level	Compulsory subject at the IUP Level for all	
<p>This course will help students to grab ideas, how to describe thoughts into a formal paragraph, and lead students in writing simple papers, thesis, report, journal, etc. Students are expected to be able to write formal academic papers properly.</p>		

Subject	Advanced Macroeconomics (3 credit points)	
Subject Code	ECEU 600202	
Prerequisite	Introductory Macroeconomics	ECEU 600200
Level	Compulsory subject at Department Level for economics	
<p>This course gives more depth analysis in macroeconomics variable in open economy. This course also requires students to explore macroeconomic theory based on mathematical and empirical approaches. Modern theory such as rational expectation, growth economic theory will also be demonstrated in mathematical approach. Basic knowledge of calculus and matrix are essential in order to master in this course.</p>		

Subject	Development Economics (3 credit points)	
Subject Code	ECEU 602002	
Prerequisite	Introductory Macroeconomics	ECEU 600200
Level	Compulsory subject at Department Level for economics	
<p>This course aims to help students to understand economic development problems in developing countries. Discussion includes 1) Definition, meaning, and economic development theories; (2) History, process, and development strategy; (3) Function of fiscal policy, monetary policy and international trade in economic development; and (4) Relationship between development in developing countries and on new international economic order. After taking this subject, students are expected to have fundamental understanding of concepts, theory and issues regarding economic development and to be familiar with indicators and empirical data related to economic development.</p>		

Subject	Economic Modelling (3 credit points)	
Subject Code	ECEU 601002	
Prerequisite	Intermediate Microeconomics	ECEU 600101
	Intermediate Macroeconomics	ECEU 600201
Level	Compulsory subject at the IUP for economics	
<p>This course aims to offer economic model alternatives in accordance with the objectives and problems in conducting economic analysis. This model discusses the uses of economic model for economic analysis and addresses the basic of mathematical modeling (except Econometrics) as analysis tools.</p>		

## SUBJECT DESCRIPTION

<b>Subject</b>	<b>Economic Research Method (3 credit points)</b>	
Subject Code	ECEU 601001	
Prerequisite	Obtained 90 credits	
Level	Compulsory subject at Department Level for economics	
<p>This course is aimed to aid students in writing their undergraduate thesis. Discussion starts from literature review, discussion, and continued on to the formation of research design. Research design includes modeling or research framework formation, variable identification and operationalization, and referencing. After taking this subject, students are expected to have the skills to write a scientific paper following formal standards.</p>		

<b>Subject</b>	<b>Economic System (3 credit points)</b>	
Subject Code	ECEU 602005	
Prerequisite	NONE	
Level	Elective subject	
<p>This course introduces various economic system applied by nation state. This course also discusses definition, function and objective of all economics system. The similarity and difference between “Market Economy”, “Planned Economy”, and “Mixed Economy” are also observed. Through this course, students must understand the advantage and disadvantage of all system economy, and applied to the Indonesian’s system economy transformation.</p>		

<b>Subject</b>	<b>Indonesian Economy (3 credit points)</b>	
Subject Code	ECEU 602003	
Prerequisite	Introductory Microeconomics	ECEU 600100
	Introductory Macroeconomics	ECEU 600200
Level	Compulsory Subject at Department Level for all	
<p>This course specifically starts with conceptual framework of various aspects that accompanies economic growth and development, followed by introduction of Indonesian economic structure and development pattern, and analysis of Indonesian economic policy and strategy. The course provides students with the application of macroeconomic conceptual framework in the real world of Indonesian economy. Students will also be introduced with various macroeconomic accounts in Indonesia, such as balance of payments, national income, input output, social accounting matrix and government budget (APBN).</p>		

<b>Subject</b>	<b>Industrial Economics (3 credit points)</b>	
Subject Code	ECEU 604100	
Prerequisite	Introductory Microeconomics	ECEU 600100
Level	Compulsory subject at Department Level for economics	
<p>This course aims to give understanding about the real company’s behavior. This will discuss about the paradigm of structure relationship among market, companies’ behavior, and performance, the consequences of market power, determination of industrial concentration, the relationship between companies’ behavior and their abilities to determine price and output as well as its impact on efficiency and wealth, price discrimination, economies of scale, market structures impact on economic performance, and the link between industry and international trade.</p>		

## SUBJECT DESCRIPTION

Subject	Intermediate Macroeconomics (3 credit points)	
Subject Code	ECEU 600201	
Prerequisite	Introductory Microeconomics	ECEU 600100
	Mathematics for Economics and Business I	ECEU 601100
Level	Compulsory subject at Department Level for economics	
<p>This course provides more technical analysis and deeper understanding of macroeconomic theory and concept, along with its application in the real world. The course covers growth theory, the construction of aggregate demand and aggregate supply, monetary and fiscal policy in both closed and open economy, and the use of macroeconomic policy instruments to achieve a balance among various macroeconomic long run goals of employment, growth, and inflation.</p>		

Subject	Intermediate Microeconomics (3 credit points)	
Subject Code	ECEU 600101	
Prerequisite	Introductory Microeconomics	ECEU 600100
Level	Compulsory subject at Faculty Level for all	
<p>This course is aimed to help students understanding more the concept of microeconomics and its application in real world. In this course, students will be introduced with more technical analysis of both consumer and producer economic behavior. Students are also expected to be able to analyze public policy and its impact to pricing and market efficiency.</p>		

Subject	Intermediate Econometrics (3 credit points)	
Subject Code	ECEU 601302	
Prerequisite	Mathematics for Business and Economics 2	ECEU 601101
	Statistics for Business and Economics 2	ECEU 601201
Level	Compulsory subject at Department Level for Economics	
<p>This course intends to give more advance analysis of Econometrics. The discussion tells us more advance estimator on regression with the characteristic of an economic data. The used of new method such as <i>Logit</i>, <i>Probit</i>, <i>Tobit</i> will be needed as the regression model use dummy variable. The course will also discuss <i>Dynamic Economic Regression</i> and simultaneous model. This course also gives more advance use of econometrical software such as E-Views and Mat-Lab.</p>		

Subject	Introductory Econometrics (3 credit points)	
Subject Code	ECEU 601301	
Prerequisite	Mathematics for Business and Economics 1	ECEU 601100
	Statistics for Business and Economics 1	ECEU 601200
Level	Compulsory subject at Department Level for Economics	
<p>This course gives basic about economic modeling and empirical solution for economic problems. The discussion in this course uses Ordinary Least Square (OLS), Generalized Least Square (GLS). This course also tests an empirical solution for economic problem with statistical theory and mathematical theorem. In this course also students will learn about econometrical software such as SPSS and E-Views. The objectives of this course will help students develop economic theory and forecast and economic data based on the theory.</p>		

## SUBJECT DESCRIPTION

<b>Subject</b>	<b>Introductory Macroeconomics (2 credit points)</b>	
Subject Code	ECEU 600200	
Prerequisite	None	
Level	Compulsory subject at Faculty Level for all	
<p>This course describes the general concept of macroeconomics, starting with the introduction of the basic nature of macroeconomic policy targets, i.e. inflation, growth, and unemployment, followed by basic macroeconomic variables and macroeconomic policies in closed and open economy. Through this course, students will understand the difference and the link between microeconomics and macroeconomics analysis.</p>		

<b>Subject</b>	<b>Introductory Microeconomics (2 credit points)</b>	
Subject Code	ECEU 601100	
Prerequisite	None	
Level	Compulsory subject at Faculty Level for all	
<p>This course explains about the overall framework of microeconomics and how it works in reality. It starts by explaining supply and demand, profitability, cost function, market structure, pricing, and efficiency. It deals with various public policy issues, including taxation, subsidy, and various forms of market intervention. In addition, this course also helps students understanding the economic rationale behind both firm and consumer behavior.</p>		

<b>Subject</b>	<b>International Economics (3 credit points)</b>	
Subject Code	ECEU 603200	
Prerequisite	Introductory Macroeconomics	ECEU 600200
Level	Compulsory subject at Department Level for Economics	
<p>This course introduces both the concept and theory of international trade, trade barriers and policies, and various forms of international economic cooperation. This course will also highlight various integral aspects of open market economy, such as balance of payment and foreign exchange regimes. Through this course students are expected to understand the mechanism of international economic relation between nations and how such mechanism will affect their welfare.</p>		

<b>Subject</b>	<b>Internships (6 credit points)</b>	
Subject Code	ECEU 609300	
Prerequisite	Obtained 129 credits including 2 elective subjects	
Level	Compulsory subject at Department Level for Economics	
<p>The program aims to offer opportunities for students to apply the concept and knowledge given in university on the real situation. This program is also a chance for students to align what they have obtained in classes to be valuable for their career in the future. Detail process of internship can be seen in part of V.7. Thesis and Internship Guidance.</p>		

## SUBJECT DESCRIPTION

<b>Subject</b>	<b>Islamic Economics &amp; Finance (3 credit points)</b>	
Subject Code	ECIE 602007	
Prerequisite	Intermediate Macroeconomics	ECEU 600201
Level	Compulsory subject at Department Level for Economics	
<p>This course aims to help students understanding the Islamic financial and monetary economics and to differ it from conventional financial and monetary system. This course covers Islamic financial aspects, for instance rationalization and the impacts of <i>riba</i> and <i>gharar</i> prohibition, Islamic funding alternatives, and current issues in Islamic finance and banking. This course also discusses the aspects of Islamic Monetary, such as money and inflation in Islam, the functions and roles of monetary policies in Islamic economics, and <i>sharia</i> monetary instrument based monetary management by the central bank.</p>		

<b>Subject</b>	<b>Mathematics for Economics and Business I (3 credit points)</b>	
Subject Code	ECEU 601100	
Prerequisite	Mathematics for Economics and Business I	ECON 11100
Level	Compulsory subject at Department Level for Economics	
<p>This course focuses more on performing dynamic analysis. It will help students understand evaluate the dynamic nature of certain economic models and theories. Basic mathematics derivative and integral will again be employed. Moreover, optimization analysis is a practiced further with the extension on doing the optimization with inequality constraint.</p>		

<b>Subject</b>	<b>Monetary Economics I (3 credit points)</b>	
Subject Code	ECEU 603100	
Prerequisite	Introductory Macroeconomic	ECON 10200
Level	Compulsory subject at Department Level for Economics	
<p>This course gives basic monetary theory. Basic knowledge such as the relationship between industrial sector and monetary sector, the link between macroeconomic variable to monetary change, Monetary policy system will be observed and discuss intensively. This course will also discuss Monetary institutions and how they will affect monetary variables. After completing this course, students are expected to understand the basic of monetary policy.</p>		

<b>Subject</b>	<b>Public Finance (3 credit points)</b>	
Subject Code	ECEU 605101	
Prerequisite	Public Sector Economics	ECEU 605100
Level	Compulsory subject at Department Level for Economics	
<p>This course focuses on national income using the theories of Public Sector Economics in the real national situation. Generally, it discusses the public sector funding that gives negative impact as burden or DWL (dead weight loss) on society: individuals, households, and companies. The Public Sector Economics also analyze the government budgeting such as an income and expenses. On the income side more elaboration on the source such as taxation, and other income. The more detail on the source of tax will tax place in the public finance studying. Whilst on the expenditure side, more elaboration will take place using the Indonesian Government Budget, Australian Government Budget and The U.S Government Budget.</p>		

## SUBJECT DESCRIPTION

Subject	Public Project Analysis (3 credit points)	
Subject Code	ECEU 601003	
Prerequisite	Introductory Microeconomics	ECEU 600100
	Introductory Microeconomics	ECEU 600200
Level	Elective subject	
<p>The course aims to explain donations of projects for investors and economy. The course emphasizes financial, economic and social analysis, applied from pre-project to post-project. Calculation considers problems of externalities including impact of environment physically and socially. Definition and calculation of shadow price and research methods about quality of environment are also concerned in this course. The course provides some methods to make a project and to analyze feasibility of a project. Cases are discussed in this course includes sectoral and social projects.</p>		

Subject	Public Sector Economics (3 credit points)	
Subject Code	ECEU 605100	
Prerequisite	Introductory Microeconomics	ECEU 600100
Level	Compulsory subject at Department Level for Economics	
<p>This course introduces public goods cost and benefit. This course is also focusing on definition, function, and provision of public goods. It is also concentrate on Government Budgeting process, and the study of the revenue and cost. Through this course, students must understand between Public and Private Goods, the definition, function, maintenance and provision of public goods.</p>		

Subject	Statistics for Economics and Business I (3 credit points)	
Subject Code	ECEU 601200	
Prerequisite	None	
Level	Compulsory subject at Faculty Level for all	
<p>This course covers inference statistics, starting with descriptive statistics, probability and interval estimation and testing hypothesis. Students are also taught to use data analysis methods such as regression estimations, basic non-parametric approaches and different types of distribution.</p>		

Subject	Statistics for Economics and Business II (3 credit points)	
Subject Code	ECEU 601201	
Prerequisite	Statistics for Economics and Business I	ECEU 601200
Level	Compulsory subject at Department Level for Economics	
<p>This course deals with descriptive statistics and qualitative method of statistics. Students are expected to be able to understand, apply, analyze, synthesize, and evaluate the concepts of variability in statistics while also become familiar with hypothesis testing using ANOVA, Chi-Square, and non-parametric statistics. Students will also learn simple regression and correlation continues with multiple regression and correlation. It also covers time-series, forecasting, and index numbers.</p>		

## SUBJECT DESCRIPTION

<b>Subject</b>	<b>Thesis (6 credit points)</b>	
Subject Code	ECEU 609100	
Prerequisite	120 credits	
Level	Compulsory subject at Department Level for economics	
<p>In the beginning, students are required to make thesis proposal consisting of introduction, hypotheses, literature review, and methodology. Detail process of the thesis can be seen in part of V.7. Thesis and Internship Guidance.</p>		

### VII.4. SUBJECTS WITH CODE OF ECMU

<b>Subject</b>	<b>Business Feasibility Study (3 credit points)</b>	
Subject Code	ECMU 601046	
Prerequisite	Introductory Marketing	ECMU 603005
	Corporate Finance	ECMU 602004
	Operations Management	ECMU 605011
	Human Resource Management	ECMU 604009
Level	Compulsory subject at the IUP Level for management	
<p>This course provides the following: (1) Assistance for students to generate original business ideas; (2) Stimulates students in conducting business; (3) enhances team work skills; (4) trains students' active participation and creativity in constructing a business feasibility study; (5) expects students to conduct surveys to come up with an accurate number; (6) Combines classical and problem-based learning teaching methods; (7) Integrates the following courses: Marketing Management, Operations Management, Human Resource Management, Financial Management as well as other courses such as Economics Theory and Introductory Business.</p>		

<b>Subject</b>	<b>Business Research Method (3 credit points)</b>	
Subject Code	ECMU 601014	
Prerequisite	Statistics for Economics and Business I	ECEU 601200
Level	Compulsory subject at the Department level for Management	
<p>The course aims to provide the student with knowledge about research process in business and management. The discussions cover the understanding of research concepts and techniques. The students are expected to be able to prepare a research proposal and conduct the research effectively and efficiently. This course explains the process of developing research design and describes the statistical analysis tools used in early research data analysis.</p>		

<b>Subject</b>	<b>Business Risk Management (3 credit points)</b>	
Subject Code	ECMU 601083	
Prerequisite	Introductory Business	ECMU 601001
	Introductory Management	ECMU601090
	Corporate Finance	ECMU 602004
Level	Compulsory subject at the Department level for Management	
<p>The course aims to give comprehension to students about basic concept of risk, risk management, and any risks in an enterprise such as business risk, human resource risk, asset risk, law risk, etc. Discussion will focus on how a company should manage all risks in its business such as human resource risk (sickness, accident, and safety), fire risk, pollution risk, security risk, fraud risk related to information technology and how to anticipate them.</p>		

## SUBJECT DESCRIPTION

<b>Subject</b>	<b>Consumer Behavior (3 credit points)</b>	
Subject Code	ECMU 603012	
Prerequisite	Introductory Marketing	ECMU 603005
Level	Compulsory subject at the IUP level for Management	
<p>This course aims to give understanding about consumers' decision making process and its relation with marketing strategies; and to study about several factors effect on consumer behavior, such as psychological, personality and cultural. The discussions involve factors considered in understanding consumer behavior, as those factors will be used as references in pricing policy, distribution pattern, product design and promotional design. This course also explains some basic theories and findings related to consumer behavior.</p>		

<b>Subject</b>	<b>Corporate Finance (3 credit points)</b>	
Subject Code	ECMU 602004	
Prerequisite	Introductory Business	ECMU 601001
	Introductory Management	ECMU601090
Level	Compulsory subject at the Faculty level for all	
<p>This course describes the complexity of financial management in (business) organizations, especially those that operate globally. This course also introduces the evolution of corporate finance concept, from past to future, and introduces the elements of corporate finance, such as capital structure, budget, and financial statement.</p>		

<b>Subject</b>	<b>CSR and Business Ethics (2 credit points)</b>	
Subject Code	ECMU 601089	
Prerequisite	None	
Level	Compulsory subject at the Department level for Management	
<p>Based on the notion that organization is an open system, interactions with the environment of the organization are inevitable. Organizations are expected to have in perspective a stakeholder orientation instead of a shareholder orientation. This course provides students with the basic knowledge of business ethics and the complexities of the relationship between organizations and the society in the form of social responsibility.</p>		

<b>Subject</b>	<b>Entrepreneurship (3 credit points)</b>	
Subject Code	ECMU 601050	
Prerequisite	Introductory Business	ECMU 601001
	Introductory Management	ECMU601090
Level	Elective subject	
<p>This course aims to set a target of creating future entrepreneurs or at least encouraging entrepreneurial mindset to the students which in the end will be the agent of value added creation in the society. It helps students understanding the way an entrepreneur should think such as the requirement and application of energy and passion towards the creation and implementation of new ideas and creative solutions, willingness to take calculated risks, the ability to formulate an effective venture team, the creative skill to assemble needed resources, and some other capability an entrepreneur should have.</p>		

## SUBJECT DESCRIPTION

<b>Subject</b>	<b>Financial Theory (3 credit points)</b>	
Subject Code	ECMU 602063	
Prerequisite	Corporate Finance	ECMU 602004
Level	Elective subject	
<p>This course aims to give understanding about financial management addressing on modern financial theory which becomes the foundation of decision and policies making in corporate finance. This course introduces some important concepts in financial management, the foundation of modern portfolio theory, funding decision, and dividend policies related to companies' stock price.</p>		

<b>Subject</b>	<b>Human Resource Management (3 credit points)</b>	
Subject Code	ECMU 604009	
Prerequisite	Introductory Business	ECMU 601001
	Introductory Management	ECMU601090
Level	Compulsory subject at the Department level for Management	
<p>Students taking this course are expected to understand in more detail the importance of human resource for the organizations and how this function is managed, especially in a global context. This course also introduces the evolution of human resource concept, from past to future, and introduces the elements of human resource management, such as recruitment and selection, training, performance evaluation, career development and compensation, and their interrelationships.</p>		

<b>Subject</b>	<b>International Business (3 credit points)</b>	
Subject Code	ECMU 601023	
Prerequisite	Intermediate Microeconomy	ECEU600101
Level	Compulsory subject at the IUP level for Management	
<p>This course is designed to introduce important aspects of business and management practice within the Indonesian economy. Each section will discuss certain business aspects and accompanied by illustrations of the typical Indonesian problem. The discussion begins with an explanation of the business environment, followed by the practice of starting a business, designing business facilities with attention to infrastructure constraints, introducing consumer behavior and marketing design, human resource management, and business financing and investor relations. This course is also expected to be useful for investors, managers or business people who have been, are or will be doing business in Indonesia</p>		

## SUBJECT DESCRIPTION

Subject	International Business (3 credit points)	
Subject Code	ECMU 601023	
Prerequisite	Introductory Marketing Corporate Finance	ECMU 603005
	Operations Management	ECMU 602083
	Human Resource Management	ECMU 605011
		ECMU 604009
Level	Compulsory subject at the IUP level for Management	
<p>This course provides understanding for students about international business practices especially the challenges and opportunities, understand strategy alternatives that are available and the elements that must be managed so that the best decision can be made in facing global competition. Several main topics of discussion include investment environment and global trade, political economy, foreign direct investment, regional economic integration, international financial system, international business structure and strategy, as well as all management functions at an international scale.</p>		

Subject	International Financial Markets and Institutions (3 credit points)	
Subject Code	ECMU 602008	
Prerequisite	Corporate Finance	ECMU 602004
	Introductory Business Law	ECMU 601003
Level	Compulsory subject at the Department level for all	
<p>This subject will introduce students to various financial institutions in the global context, performance and risk evaluation as well as financial markets and instruments in Indonesia and other countries. The discussion in this course covers both bank and non-bank institutions such as insurance, pension fund, leasing and venture capital. Students will also be provided with the basics of central bank practices and issues This subject also discuss the financial market, both capital market and money market.</p>		

Subject	International Human Resource Management (3 credit points)	
Subject Code	ECMU 604060	
Prerequisite	Human Resource Management	ECMU 604009
Level	Compulsory subject at the IUP level for Management	
<p>After taking this course, students are expected be able to explain and apply operational functions of human resource management in the context of multinational companies and global business environment in the purpose of to achieve the company's objectives.</p> <p>The course discusses any issues in human resource management which are emerged in global business, including some functions of human resource management such as human resource planning, selection, training and development, compensation and performance management of multinational companies.</p>		

Subject	International Marketing (3 credit points)	
Subject Code	ECMU 603026	
Prerequisite	Introductory Marketing	ECMU 603005
Level	Compulsory subject at the IUP level for management	
<p>This course aims to provide students with the understanding of product marketing overseas, stages in conducting international marketing, and the methods to conduct international marketing. The course involves the strategic reasons for international marketing, the challenges faced, and how to effectively conduct international marketing by understanding culture country differences.</p>		

## SUBJECT DESCRIPTION

Subject	Internships (6 credit points)	
Subject Code	ECMU 601078	
Prerequisite	114 credits	
Level	Compulsory Subject at the Department Level for Management	
<p>This course aims to give opportunity for students to implement their study and knowledge that they got in IUP-FEB UI in real business, in order to students understand the relevance of management science in real business.</p>		

Subject	Introductory Business (2 credit points)	
Subject Code	ECMU 601001	
Prerequisite	None	
Level	Compulsory subject at the Faculty level for all	
<p>This course describes the comprehensive nature of the business world. More specifically, students are expected to understand how the business organizations operate in utilizing their resources and how these organizations cope with their dynamic environments (the emphasis is placed on global environments). This course also introduces functions of business organizations, mainly human resource, finance, marketing and operation, and how these functions are related to each other, and are managed in an integrated manner.</p>		

Subject	Introductory Business Law (3 credit points)	
Subject Code	ECMU 601003	
Prerequisite	None	
Level	Compulsory subject at the Department level for all	
<p>This course is aimed to help students understanding economic and business regulation in Indonesia. In this course students are expected to be able to analyze both real and potential impact of the regulation on business viability and competitiveness of Indonesia for investment. The course will cover analysis on law and regulation on both foreign and domestic investment, money market and capital market, and international and domestic trade, in Indonesia.</p>		

Subject	Marketing Management (3 credit points)	
Subject Code	ECMU 603005	
Prerequisite	Introductory Business	ECMU 601001
	Introductory Management	ECMU601090
Level	Compulsory subject at the Faculty level for management	
<p>This course explains in more detail the importance of marketing for the organizations and how this function is managed, especially in a global context. This course also gives an introduction of the evolution of marketing concept, from past to future, and introduces the elements of marketing management, such as product, price, place and promotion, and their interrelationships.</p>		

## SUBJECT DESCRIPTION

<b>Subject</b>	<b>Introductory Management (3 credit points)</b>	
Subject Code	ECMU601090	
Prerequisite	None	
Level	Compulsory subject at Faculty Level for all	
<p>This course explains about the concept of management and its development from past to future to understand the nature of an organization, and the importance of management for the organization to achieve its goals and objectives efficiently and effectively. This course emphasizes the discussion of the management of the organization on the process point of view, from planning to controlling, where each sub process affects one another.</p>		

<b>Subject</b>	<b>Managerial Decision Making (3 credit points)</b>	
Subject Code	ECMU 601024	
Prerequisite	Introductory Management Science	ECMU 601007
Level	Compulsory subject at the Department Level for Management	
<p>The course will help students to identify the different categories and situations, to determine the proper decision making approach, to calculate cost and benefit of any additional information, to understand the basic game theory, and to be a facilitator in a group decision making process. It discusses the decision making techniques under uncertainty, the evaluation of cost and benefit for additional information, and the basic qualitative decision analysis for complex situations which involve multi objectives, uncertainty and multi participants.</p>		

<b>Subject</b>	<b>Marketing Research (3 credit points)</b>	
Subject Code	ECMU 603044	
Prerequisite	Business Research Method	ECMU 601014
Level	Compulsory Subject at the IUP level for management	
<p>This course is a continuation of Business Research Method subject. It covers the application of marketing research concept comprehensively in marketing process and activities, both for research aims to identify and solve the problems.</p>		

<b>Subject</b>	<b>Operation Management (3 credit points)</b>	
Subject Code	ECMU 605011	
Prerequisite	None	
Level	Compulsory at the Department Level for management	
<p>This course explains in more detail the importance of operation for the organizations and how this function is managed, especially in a global context. This course also introduces the evolution of operation concept, from past to future, the differences of managing operation in manufacturing and services, and the elements of operation, such as product, production process, technology and quality, and their interrelationships.</p>		

## SUBJECT DESCRIPTION

Subject	Organizational Behavior (3 credit points)	
Subject Code	ECMU 604013	
Prerequisite	Introductory Business	ECMU 601001
	Introductory Management	ECMU601090
Level	Compulsory subject at the Department Level for management	
<p>This course explains the behavior aspect of human resource in the organizations as an individual, and in a group. More specifically, students are expected to recognize the differences among individuals and how such differences affect their interactions in a group, and to understand how these individuals are motivated and led toward achieving the organizations' goals and objectives.</p>		

Subject	Organizational Culture (3 credit points)	
Subject Code	ECMU 604033	
Prerequisite	Human Resource Management	ECMU 604009
	Organizational Behavior	ECMU 604013
Level	Compulsory subject at the IUP level for management	
<p>This course explains the fundamental concepts of organizational culture. Subject	Strategic Management (3 credit points)	
Subject Code	ECMU 601047	
Prerequisite	Introductory Marketing	ECMU 603005
	Corporate Finance	ECMU 602004
	Operations Management	ECMU 605011
	Human Resources Management	ECMU 604009
Level	Compulsory subject at the Department Level for Management	
<p>This course provides basic understanding of strategic management and strategies of constructing a strategic plan. The course includes the following steps: (1) Vision and mission formation; (2) External analysis; (3) Industry analysis; (4) internal analysis (5) Business strategy analysis (6) formation and decision making on business strategies ; (7) Strategy implementation: problem analysis (8) Strategy implementation (9) Control and evaluation on strategy implementation.</p>		

Subject	Logistic and Supply Chain Management (3 credit points)	
Subject Code	ECMU 605073	
Prerequisite	Operation Management	ECMU 605011
Level	Compulsory Subject at the IUP Level for Management	
<p>This course aims to engage students to learn the science and art of product flow management, starting from the product being acquired until it is delivered to the next supply chain. The emphasis is on how the product flow, transaction activities, and information flow are arranged, managed, and controlled both in company and among companies.</p>		

Subject	Thesis (6 credit points)	
Subject Code	ECMU 601077	
Prerequisite	114 credits	
Level	Compulsory Subject at the Department Level for Management	
<p>This course aims to increase capability of students in analyzing topics related to their interest and study, integrating their knowledge and study, and formulating ideas in research writing. Students who are interested in this elective course, should have thesis advisor and should write topic that is still relevant with their concentration.</p>		

## SUBJECT DESCRIPTION

### VII.5. SUBJECTS WITH CODE OF ECAU

<b>Subject</b>	<b>Accounting Information System (3 credit points)</b>	
Subject Code	ECAU 607202	
Prerequisite	Cost Accounting	ECAU602101
Level	Compulsory Subject at the Department Level for accounting	
<p>This subject provides students with an understanding of various business cycle in a company, system documentation techniques to document those cycles, documents and information flow within each cycle and internal control required in each cycle. Students will be required to attend a computer laboratory class to learn system documentations techniques and basic database design.</p>		

<b>Subject</b>	<b>Accounting and Business Case Analysis Methods (2 credit points)</b>	
Subject Code	ECAU 609107	
Level	Cost Accounting ECAU602101	
<p>Learning objectives are for students to be able to understand, discuss and write an analysis of accounting and business cases and later be able to conduct and write report based on research, internship report, research, and or case studies.</p>		

<b>Subject</b>	<b>Advanced Financial Accounting I (3 credit points)</b>	
Subject Code	ECAU601309	
Prerequisite	Intermediate Financial Accounting I	ECAU601203
Level	Compulsory Subject at the Department Level for Accounting	
<p>This course explores concepts and accounting treatment of consolidated financial statements. Specifically, this course will explore the concept of control on business merger and/or combinations, prepare consolidated financial statements and its worksheets; including accounting treatment for changes of shareholders, calculation of earning per share on consolidated statements as well as accounting for foreign currency transactions</p>		

<b>Subject</b>	<b>Advanced Financial Accounting II (3 credit points)</b>	
Subject Code	ECAU601313	
Prerequisite	Intermediate Financial Accounting II	ECAU 601203
Level	Elective Subject at the Department Level for Accounting	
<p>This course explores a variety of topics specifically financial accounting which occurs on an entity.
